WARNING! Abrasive products **MUST NOT** be used without proper personal protective equipment and approved dust control methods. Failure to do so may result in the inhalation of respirable crystalline silica and can cause serious or fatal respiratory diseases, including silicosis.

Dust and Silica Warning The use of abrasive tools generate dust. This dust may contain respirable crystalline silica. Repeated and/or substantial inhalation of airborne crystalline silica can cause serious or fatal

respiratory diseases, including silicosis. In addition, California and some other authorities have listed respirable crystalline silica as a substance known to cause cancer.

These products **MUST NOT** be used without (1) proper personal protection equipment that has been fit tested to the worker, and (2) dust containment and collection systems, or (3) integrated water delivery systems. Acceptable work practices and recommendations for dust control methods

can be found in the **29 CFR § 1910.1053**.

If you are unfamiliar with the risks associated with cutting, grinding, or polishing quartz, quartzite, granite, sintered material, concrete, mortar, brick, or block, please review the products' material safety data sheet and/or consult your employer, the manufacturers/suppliers, or governmental agencies such as **OSHA** and **NIOSH** and other sources on the hazardous of these materials.

Warning! Products can expose you to chemicals which are known to the State of California to cause cancer, birth defects or other reproductive harm.

California residents see all prop 65 warnings at www.p65Warnings.ca.gov

TABLE OF CONTENTS

[Index: pages 246-247]

1 - BLADES

Turbo Blades.....	3-7
Specialty Blades (Marble, Contour, Tile, UCS, etc.)	7-17
Bridge Saw Blades.....	18-33
Milling Wheels.....	34

2 - POLISHING PADS, SANDPAPER & ACCESSORIES

Polishing Pads.....	35-44
Specialty Polishing Pads.....	45-50
Sandpaper.....	51-54
Hand Pads & Polishing Drums.....	55-56

3 - CORE BITS & ACCESSORIES

Wet Use Core Bits.....	57-58
Dry Use Core Bits.....	59-60
1/2" Gas Core Bits, Specialty Core Bits.....	61-62
Water Jackets & Adapters.....	63

4 - CUP WHEELS & GRINDING STONES

Tornado System Grinding Wheels.....	63
Diamond Cup Wheels.....	64-67
Silicon Carbide Grinding Wheels.....	68

5 - ROUTER BITS, PROFILING TOOLS & SPECIALTY BITS

Router Bits (Diamond, Electroplated).....	69-73
Profiling Bits.....	73-74
T-31 Anchor Bits & Accessories.....	75
Die Grinder Tooling.....	76

6 - CNC MACHINE TOOLING

CNC Vacuum Pods.....	77-79
ADI® CNC Program Overview.....	80-83
CNC Profile Wheels.....	84-88
CNC Finger Bits.....	89-91
Stubbing Wheels.....	92
Adapters, Connection Cones.....	92-93
CNC Core Bits.....	94
Zoller Smile Pilot, Advant Edge.....	95
CNC Blades, Tool Dressing Stones.....	96

7 - AUTO EDGE MACHINE TOOLING

Flat Polishing, 3-Step Systems, 5-Step Systems.....	96-97
ADI® Auto Edge Wheels.....	98-100
Straight Edge Polish Wheels.....	101
Bullnose Polish Wheels.....	102
Combo Polish Wheels.....	103-107
Leather Texture Effect/Antiquing Brushes.....	108-109

8 - RADIAL ARM MACHINE TOOLING

Incremental Cutting Finger Bits, Finishing Brushes.....	111-112
Top Polishing.....	113
Bush Hammer Plates, Grinding Drums.....	114-115

9 - ENVIRONMENTAL SAFETY

DuroAir Dust Containment & Air Cleaning Systems..	116
Weha Dust Walls, Novair HEPA Filtration Systems..	117
HEPA Vacuums, Aztec® Floor Scrubber.....	118
Dust Guards & Shrouds (for Grinders).....	119
Particulate Respirators, Dust Maks.....	120
Water Recycling/Reclamation Systems.....	121-122

10 - LARGE EQUIPMENT

Sasso America Flying Fla Vertical Edge Polisher.....	123
Farnese Bridge Saws.....	124-125
Farnese Alexia Sink Cutout System.....	126
Fab King Sink Cutout System.....	127
Farnese Technicut CNC Bridge Saw.....	129

11 - PORCELAIN FABRICATION TOOLING & EQUIPMENT

Material Handling Equipment.....	130-131
Alpha Cutting Tools and Equipment.....	132
Blades, Cup Wheels & Core Bits.....	133

12 - MATERIAL HANDLING

Gorbel Cranes & Hoists.....	134
-----------------------------	-----

Manzelli Vacuum Lifters.....	130,135-136
Slab Lifters & Accessories.....	136-138
Transport Racks, Carts.....	138-139, 145
Carts, Self-Dumping Hopper.....	140
Fabrication Tables.....	141-144, 149
Booms.....	146-147
Slab & Bundle Racks.....	147-148
Carry Clamps & Dollies.....	149-150, 132

13 - INSTALLATION SUPPLIES

Omni Cubed.....	151-158
Suction Cups & Seam Setters.....	159-161
Sinks.....	162
Sink Installation Products.....	163-166
Protective Film, Drop Cloth, Builder's Paper.....	167
Corbels, Fiberglass Reinforcement Rodding.....	168
Tuscan Leveling System, Pearl® Smart Spacers.....	169

14 - STONE RESTORATION & CARE

Repair Supplies.....	170
Surface Prep Products.....	171
Surface Machines.....	171-172
Floor Polishing Pads, Buffing Pads.....	173-175
Shop Vacs.....	176
Floor Grinding Discs & Pads.....	177-178

15 - ADHESIVES

Polyester, Hybrid Adhesives.....	179-159
Superior® Adhesives, Coloring Paste.....	180-182
Akemi® Adhesives, Coloring Paste.....	183
Tenax® Adhesives.....	186-187
Nitro® One Shot Adhesives.....	188
Adhesive Guns, Colorants, Accessories.....	188-189
Repair Kits, Tape, Hot Glue Guns, Caulk Guns.....	191-192
Adhesive Caulks.....	193

16 - FABRICATION CHEMICALS

Impregnators, Sealers.....	194-198
Color Enhancers.....	194-197
Cleaners, 113M 3-IN-1.....	198-199
Waxes & Polishes.....	200
Honing Powder, Marble Polish.....	201-202
Reulin Powder, Felt Buffing Pads.....	203

17 - SHOP SUPPLIES

Clamps, 90° Mitre Clamp, OmniCubed Miter-It™.....	204
Waterproof Fabrication Shop Clothing.....	205-206
Dust Masks, Hearing/Eye Protection.....	207-209
China Markers, Coilhose Blow Guns.....	210
Levels & Squares, Utility Knives, Razor Blades.....	211

18 - POWER TOOLS & ACCESSORIES

Grinders.....	212-213
Polishers, Electric.....	214
Polishers, Pneumatic Waterfed.....	215-217
Polishers, Electric Dry Use.....	218
Sanders & Die Grinders.....	218
Cutting Guards, Dust Shrouds.....	219
Back-Up Heads & Pads.....	219-220
NSI Seam Phantom, NSI Floating Turbo Wheels.....	221
Saws - Circular, Track Saws, Pneumatic.....	217, 222-224
Saws - Tile.....	225-226
Achilli Jobsite Saws.....	226-231
Fluting & Chiseling Tools.....	232
Magnum Routers.....	233
Marmomechannica Master Router.....	234
Aqua Router, Klindex Planetary Polisher.....	235
T-31 Machines & Anchor Bits.....	236
Power Tool Accessories.....	237

19 - MONUMENT TOOLS & SUPPLIES

Stencil Cutting Supplies.....	238-240
Lifting/Transport Supplies and Equipment.....	241-242

NEW for 2020!

More Innovations in Fabrication Equipment and Supplies, From GranQuartz®

GranQuartz is the leading distributor of stone fabrication, tile and concrete tooling and supplies with nearly 40 years of experience and is the trusted partner you can rely on to help ensure the success of your business. Whether we serve you through our experienced staff of sales professionals, retail stores and distribution centers, catalogs, telemarketing or e-commerce, we are always here when you need us!

Ad-Vise CNC Tool Press

940699	7"	20mm - 4 hole	88.95

PEARL

Pearl® P5S Turbo Blade

- 8mm Rim height
- Wet or dry cutting
- For granite, natural stone and engineered stone surfaces, concrete

Stock No.	Diam.	Arbor Size	Price
677100	4 1/2"	7/8" - 5/8"	\$54.86
677101	5"	7/8" - 5/8"	65.73
677102	6"	7/8" - 5/8"	71.03
677103	7"	5/8", \diamond	75.83

PEARL

Pearl® P4™ Super Dry Blade

- 8mm Rim height
- Extra long life
- Waved design adds stability to the steel core, reduces friction, and removes the debris from the cutting path, extending blade life
- Wet or dry cutting

Stock No.	Diameter	Arbor Size	Price
115764	4"	20mm-5/8"	\$54.95
115767	4 1/2"	7/8" - 5/8"	59.95

116321	12"	1"	255.00

PEARL

Pearl® P5™ Super Dry Blade

- 8mm Rim height
- High diamond concentration for extra long life
- Waved core design adds stability, reduces friction, and removes the debris from the cutting path
- Extended diamonds on the rim and embedded diamond segments in steel core reduces under-cutting and keeps the blade cool
- Wet or dry cutting

Stock No.	Diameter	Arbor Size	Price
940150	4"	20mm - 5/8"	\$60.95
940152	4 1/2"	7/8" - 5/8"	67.20
940155	5"	7/8" - 5/8"	80.70
940157	7"	7/8", \diamond , 5/8"	99.30
940158	8"	5/8", \diamond	131.40
940159	10"	5/8", \diamond	226.95

ALPHA

Alpha® Quad Turbo Blade

- 8mm Rim height
- Use with Quad Adaptor for flush cutting applications- Quad Drive Adapter eliminates the typically required lock nut
- Make 90° inside corners cleanly and efficiently
- Wet or dry cutting

Stock No.	Diameter	Arbor Size	Price
116063	4" Quad	20mm	\$53.45
116067	5" Quad	20mm	67.26
116070	6" Quad	20mm	79.44
116072	7" Quad	20mm	84.72
116074	8" Quad	20mm	103.15
116077	9" Quad	20mm	156.20
116075	10" Quad	20mm	175.68

Alpha® Plus Turbo Blade

- 8mm Rim height
- Use on angle grinders, wet stone cutters and demolition saws
- Wet or dry cutting

STANDARD

FLUSH-CUT

Pro Series® UCS Turbo Blade

The Pro Series UCS blade is unlike any blade in the market. With a thin kerf, special matrix, diamond grit size, and electroplating on the cutting side of the rim, the Pro Series UCS is a truly universal cutting blade. Testing has shown it will work great on UCS material, quartzite, granite, and engineered stone.

• Available in standard Quad or full face Flush Mount for finish cutting

Weha® Trio 3-Step Polishing Pads

Geometric Water Displacement Technology Pattern design allows water to flow across and through the pad more efficiently, keeping the pad from hydroplaning for more aggressive contact with the stone. GWD Pattern allows a faster, better polish than "brick pattern" pads.

- Geo Pattern design eliminates the segment loss on edges of pad
- Great on light and dark quartz, engineered stone, granite & quartzite
- White Hybrid bond will not bleed or leave marks on light or dark quartz or other stone surfaces

Stock No.	Description	Price
446058	Step 1	\$25.00
446059	Step 2	25.00

291837	3" Orbital Sander	\$99.00

Quartz Renew Restoration Products

Designed to pick up where diamond polishing finished or correct small damaged areas to bring the material up to match the factory finish. The 3-step polish chemicals puts texture back into the repair area and removes any residual hazing from polishing. Great method for removing common issues like suction cup marks, A-frame marks, acetone burns, stains & other surface flaws or dings.

- Removes marks left by cups or equipment during fabrication
- Simple 3-step system restores polish

The Tornado Grinding System Is A GREAT SOLUTION For Shops Moving To WET Grinding!

TORNADO GRINDING WHEEL SYSTEM

Tornado grinding wheels are the smoothest running and cleanest cutting grinding wheels available. Made in Germany to exacting standards, Tornado wheels deliver a superb balance of grinding performance and long tool life. Available in a full sequence from 36-320 grit, Tornado wheels allow you to remove as much or as little material as required.

Tornado wheels have been specially engineered for long life and proven in extensive tests to last as long as 40 standard 4" silicon carbide wheels.

- Safer than silicon carbide bricks and dust free when used wet
- Precision balanced for silky smooth grinding
- Aggressive grinding action
- Extra long life
- Available in four styles for a variety of grinding applications
- Max 4,000 RPM

Tornado Accessories

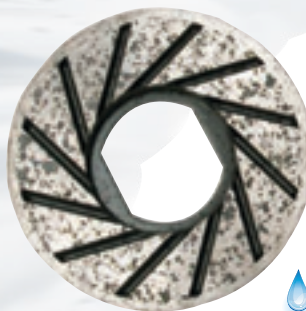

- Magnet holds tool firmly in place, while allowing quick and easy tool change

Stock No.	Description	Price

115894	4" T-3 Green, 320	195.95

SEGMENTED CUP WHEELS

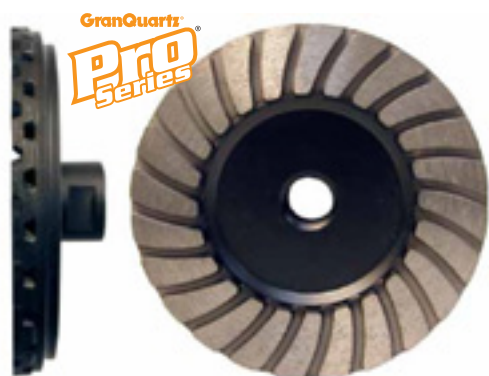

Aluminum Body Cup Wheels

Perfectly balanced to eliminate chipping and provide smooth grinding and shaping. The body is made of aluminum, a softer metal which reduces chattering and absorbs the "bounce" associated with stock removal.

- Lightweight aluminum body
- Use for grinding and stone edge prep/shaping
- Works great on granite
- Wet or dry use
- 5/8" – 11 Female arbor

Assassin® Fragmented Router Bits

Assassin® Fragmented Router Bits are manufactured through a unique process where plastic injection molding is combined with a diamond tip in a fragmented state. The results are a lightweight profiling tool with exceptional cutting speed that keeps a consistently uniform shape throughout its life.

- Exceptional Cutting Speed
- Maintains shape integrity
- Economical Option

ADI® UHS® ROUTER BITS

ADI is the world's premier manufacturer of diamond tools for the stone market, with an unparalleled knowledge of industrial diamond applications. Continuous research, development investments and close alliances with leading stone-working machinery manufacturers keep ADI at the forefront of the Industrial Diamond industry.

**ULTRA
AGGRESSIVE
MATRIX!**

**Rubber Bits
4,000
MAX RPM!**

GranQuartz offers a full line of ADI router tools. All profiles and sizes are available, and common profiles and sizes are stocked.

GranQuartz matches the best selection of high quality tools and equipment with the most knowledgeable sales force in the stone industry and the largest inventory of diamond tooling in North America.

UHS® Router Bits from ADI® are the "gold standard" in the stone fabrication world. UHS bits are the FASTEST profiling bits available, formulated using an EXTRA AGGRESSIVE diamond matrix for ultra fast stock removal.

Diasant® Premium Blue Diamond Router Bits

NEW!

Diasant Premium Blue Router Bits have been improved to be even faster than before with High Speed diamond formulations. Premium Blue wheels are produced in virtually any profile or shape needed, including custom drawn profiles. With patented toucher bearing technology Diasant Premium Blue router bits provide perfect and consistent profiles every time. Diasant wheels can be transformed into different profiles by just replacing the toucher.

- Fast, clean cutting and long life
- Available in many shapes and sizes
- Consistent forms

Marmo® Segmented Z-Wheel

Marmo's segmented Z-wheels work well on granite, marble and engineered stones with excellent grinding power. Wheels include toucher.

- Provides a stable grinding platform
- Prevents gouging and uneven grinds
- One piece molded body for even wear

Stock No.	Description	Price
442920	Marmo Z-Wheel.....	\$489.28

Removable bearing
Fixed bearing

Pulsar® Segmented Z-Wheel

Pulsar's segmented Z-wheels are for use with most stone routers on granite, marble and engineered stones. Great for producing drop in sinks and intricate radius work.

- Use for grinding out sink holes
- Great on granite & engineered stone
- One piece molded body for even wear

T-31 Anchor Machines
on Page 236

Available with 3/8" or 1/4" shank.

Stock No.	Description	Price
933306	3/16" with 3/8" Shank	\$26.19
933299	1/4" with 3/8" Shank	34.13
933302	3/8" with 3/8" Shank	49.95
933018	3/16" with 1/4" Shank	31.28
933307	1/4" with 1/4" Shank	39.78
364294	3/8" with 1/4" Shank	62.86

Anchor Bit Adapters

Choose standard or premium anchor bit adapter. Standard adapter uses two screws to hold a 3/8" shaft tool in place. Premium adapter uses a collet system that centers the bit exactly for precise cutting, and holds either 1/4" or 3/8" shafts. Premium adapter includes 2 collets 1/4" and 3/8" and wrench.

Stock No.	Description	Price
924987	Premium Collet Adapter.....	\$275.00
924988	Replacement Premium Collet Adapter 5-6mm.....	61.90
924989	Replacement Premium Collet Adapter 3/8"	61.90
925072	Replacement Premium Collet Adapter 6.5mm.....	61.90
924981	Replacement Wrench for Premium adapter	59.80
924158	Standard Collet Adapter.....	30.99

Alpha® Vacuum Brazed Trimmer Bits

Versatile tool perfect for trimming electrical receptacles, water-valve holes, shower knobs, etc. Designed for use on Granite, Engineered stone, Porcelain Tile and other materials.

- Wet or Dry Use
- 1/4" Diameter
- 1/4" Shank
- Max RPM 33,000

Stock Number	Size	Price
116352	2" x 1/4"	\$48.72

Pro Series® Vacuum Brazed Anchor Bits

- Fast cutting action
- Available with either 3/8" or 1/4" shank.
- Vacuum brazed for long life

Stock No.	Size/Shank	Price
933301	3/16" with 3/8" shank	\$21.95
933303	1/4" with 3/8" shank	27.25
933305	3/8" with 3/8" shank.....	30.40
Stock No.	Size/Shank	Price
933309	3/16" with 1/4" shank	\$26.20
933310	1/4" with 1/4" shank.....	29.35

Intended for
Mounting Sinks Only.

T Anchors (with Nuts, Washers & Lock Washers)

Sold in packs of 25, stainless steel.

Stock Number	Description	Price/Pkg.
933313	3/16" x 1 1/2"	\$20.51
933314	3/16" x 2"	22.33
933315	3/16" x 2 1/2"	23.59
933316	1/4" x 1 1/4"	22.33
933317	1/4" x 1 1/2"	23.59

Vacuum Pods

- Anodized Aluminum
- Vulcanized Rubber on Top and Bottom Plates
- Double Sealed, Replaceable Rubber Gaskets
- Modular Design for Low Shipping Cost

ADI® CNC Vacuum System

ADI Vacuum Pods are precision manufactured in Italy to the exacting OEM specifications of the industry's top stone machinery manufacturers. ADI vacuum pods' modular design option allows easy replacement of damaged com-

ponents, as well as the ability to assemble custom pod solutions. ADI Vacuum Pods are available in a wide range of shapes and sizes. Call GranQuartz for more details. 1-800-458-6222.

Modular design option for lower shipping costs and no need to ship entire pods across the country for rework due to damage or wear.

Vulcanized rubber plates with double sealed rubber gaskets that are easily replaceable (and more wear resistant than foam gaskets found on other systems).

What makes our TOTAL CNC PROGRAM BETTER?

ADI® Tooling + ZOLLER pre-setting equipment, ADVANT-Edge dressing machine and AD-Vise tool removal press, a TOTAL SOLUTION for building a completely modular CNC work flow.

ADI provides the best performance and value for high volume production. ADI's UHS (Ultra High Speed) tooling is consistently proven the best choice for high volume production shops. An investment in UHS tooling pays dividends in the form of the lowest cost per linear meter and a superior final quality of the work.

ADI tooling is manufactured in Italy using the absolute highest level of quality control in the diamond tool industry.

- Available in 120 series, 80 series, 40 series & 20 series
- Customized pre-set labels on each wheel
- Precision balanced
- Full water channel design
- More water distribution points
- Lowest cost per linear foot in the industry
- ADI certified reshaping service available

120 series UHS tooling

40 series ADI Eraser tooling

ZOLLER Pre-Setter and Tool Management for CNC profile tooling

- Maximizes your CNC program by allowing offline tool calibration
- More precise setup creates increased tool life

Advant-Edge Tool Dressing Machine

- Onsite, offline tool re-dressing saves time and money

Ad-Vise CNC Tool Press

- Remove "seized" tooling from connection cones without damage to the diamond cutting surface

Knowledgeable, Experienced CNC Service Technicians

You can depend on our certified CNC technicians to train your operators onsite on your machine. Our technicians have over 60 years combined in the CNC tooling and fabrication industry. Call for more information on how we can help you optimize your CNC tooling and equipment program.

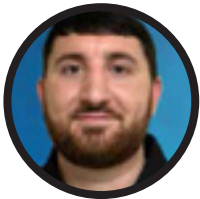

Carlo Artina

Michael Rosener

Josh Serres

Caleb Thompson

Alston Tidwell

Stone industry's largest inventory of CNC tooling

GranQuartz fills your CNC orders quickly and accurately with tooling shipped daily from 14 stocking locations!

Hands-Free Profile Wheels

ADI® has taken a selection of popular profiles and slightly modified the design to enhance shop productivity. The result is a line of profiles that can go directly from the machine to the transport rack, without the need for touching-up the shape or easing sharp edges. ADI Hands-Free profiles save time & money, and allow users to fully take advantage of their equipment investment.

MFP5 Profile Wheels

ADI's Special Hybrid technology drastically reduces visible polish lines and extends the life of a polishing series. Replace the first polishing position in either the UHS or Veloce series for the ultimate polish. The MFP5 is available in many different shapes and sizes and is especially effective on profiles prone to polishing lines such as A, T, ZR and others.

ADI Magic Profile Wheels

Magic profile wheels are the latest innovation in resin bonded cnc polishing wheels, perfect for operators utilizing compensation programs. In addition to longer tool life and high quality polishing, ADI's Magic wheels are perfectly suited for fabricating granite and most engineered stone surfaces, unlike other brands of comparatively designed resin bonded wheels.

ADI EXPRESS Solid Rubber Profile Wheels

Express rubber wheels are long-lasting and produce the best polish of any rubber wheels available. Express wheels are designed with a continuous outer layer of diamond abrasive that flexes around the tool's core and grips the work piece with a snug fit and the correct amount of pressure to eliminate signs of "orange peel". Express wheels deliver a very high level of gloss. For use with UHS or Veloce tooling.

ADI®- World's Finest CNC Tooling

ADI is known as the most innovative and widely specified manufacturer of CNC tooling for the stone industry. ADI has a long history as the premier developer of diamond tooling including:

- UHS (Ultra High Speed) technology
- Widest range of available sizes and profiles, with highest level of consistency and accuracy
- Highest quality diamond tooling
- Fastest and most consistent tool re-dressing program with six EDM's located in the U.S. for quick turn around time

Every ADI metal tool includes a custom pre-set sticker for that particular tool, and gives you the precise information to load into your CNC. The pre-set sticker is an extra step ADI takes to assist the end user, and is another reason why ADI is the leading CNC tool manufacturer in the stone industry.

Balanced tools - better finishing results, better spindle life

- Preset information by Zoller - Faster more accurate setup
- All profiles available with UHS technology - faster working parameters
- Closed profiles available with radius or chamfer better finishing - lowers need for hand fabrication
- MFP5 (finer diamond grit size available for shallower lines) lessens need for hand polishing
- Longer life - lower cost per linear foot

Water Flow: EDM Produced Water Openings

- Many similar sized wheels do not have the same amount of water slots, some tooling is produced with none at all
- The water slots are cut into the tooling with an EDM machine, a time-intensive process
- Many manufacturers cut costs by putting fewer slots, which adversely impacts the quality of the finished product
- Hole placement and diameter of the opening matters
- Other tooling may have less water holes causing decreased life as the tool heats up and distorts during production, reducing useful life and causing lines in the stone

Why This Matters

- *More water = more debris removal, ability to run faster feed speeds, better finish and less tool wear*

Depth of diamonds in the wheel

- The thickness of the sintered segments impacts the tool's performance, life, finish quality and time required to calibrate the tool
- Many tooling manufacturers only put diamonds in the outer layers of their tooling to save cost and lessen manufacturing time
- Shallower diamond depth will allow tools to damage faster and limits the ability to re-dress and EDM the tooling

Limited investments in these areas = Less expensive tooling, that doesn't run as long, is more easily damaged, causing undesired fabrication results (additional labor costs).

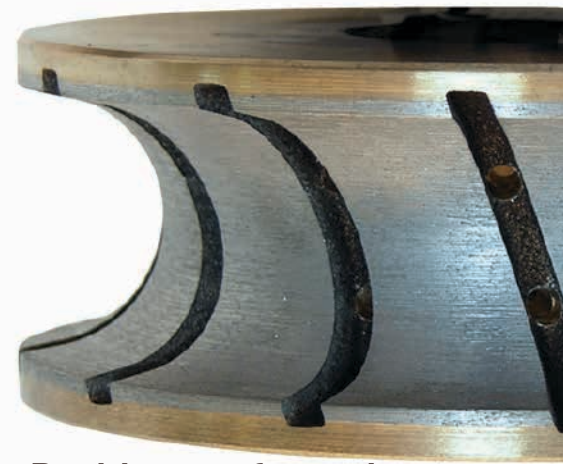

- EDM technology for a perfect shape of the wheel and interchangeability
- US facility with 6 CNC EDM machines - fast turnaround of tooling - minimizes downtime & need for redressing
- Technical service provided by different technicians directly at end user facility (4 Techs in US)

ADI - USA's CNC Re-dressing facility is unique to the stone industry, and adds value to your tooling investment

- ADI factory trained and certified technicians
- Complete technical analysis of used or damaged diamond tooling
- Faster turnaround times on re-dressing ALL your ADI CNC tooling
- Returns tools to their original factory specifications
- Maximizes the life of your CNC tools

ADI-USA's North Carolina Re-dressing Facility

Precision manufactured water slots

Intricately engineered water slots are precisely machined into each tool, an extra step most manufacturers don't perform.

Many Additional Shapes & Sizes Available

20 SERIES MICRO-LINE PROFILE TOOLING

Perfect for profiling sink cutouts and other small radius curves!

- 20mm Diameter
- 1/2" Gas Connection
- Patented design

ADI's 20mm Micro-Line tooling features single continuous rim design with 2 EDM slots. The continuous design now has a higher concentration of diamond and is extremely rigid. Field tests have produced almost double the life of comparable tooling.

- Improved Life and Finish
- More Rigid/Robust design
- Higher Concentration of diamond
- Continuous design holds profile shape longer
- Less vibration with continuous design

Save valuable time by profiling & polishing hard to reach places with your CNC.

MFP5 PROFILING WHEELS

Special Hybrid technology drastically reduces visible polish lines and extends the life of a polishing series. Replace the first polishing position in either the UHS or Veloce series for the ultimate polish.

The MFP5 is available in many different shapes and sizes and is especially effective on profiles prone to polishing lines such as A, T, ZR, etc..

[Note: Some shapes are SPECIAL ORDER]

EQUITAL INDUSTRIES, INC.

ADI® Pre-Cut UHS Breaker Bits

Extend the life of your valuable profile wheels by using an ADI edge breaker. With UHS technology, the ADI edge breaker series rapidly removes material and does so with long life.

- Available in Single/130mm or Double/120mm

Stock No.	Description	Arbor
929281	SINGLE, 130mm	35mm
929282	DOUBLE, 120mm	35mm

ADI^{USA}
EQUITAL INDUSTRIES, INC.

ADI® Mitre Ninja Pre-Cut Bit

Miter Ninja is an exciting addition to the Ninja series of stackable pre-cut tools. The Miter Ninja can be used alone or stacked together with any combination of Ninja Blades. Stack two Miter Ninjas together as a double breaker; by adding or removing #1 blades in the middle of the two Miter Ninjas, you can use the tool set on 2cm, 3cm, or 4cm material.

- 15mm Height
- 35mm Connection
- Use single Ninja bit [for Y Profiles] or double stacked Ninja bits [for X Profiles]

Stock No.	Description
929832	Mitre Ninja Bit
929780	#1 Ninja Blade, 70mm Diameter

NINJA PRE-CUT TOOLING

Ninja pre-cut blades can be stacked in literally thousands of different configurations giving users the flexibility to accommodate most any profile or any specific need.

- Fast, free cutting
- 5mm thick with integrated water channels
- Vary from 70mm to 155mm in diameter
- Flexible and economical

Stock No.	Description

CNC FINGERBITS

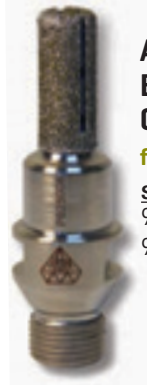

ADI® Goldfinger Segmented CNC Fingerbit
for Engineered Stone and Granite

A break-in period is required on Goldfinger fingerbits. Run the new bit at 60% of its maximum feed rate & 80% of its max RPM for the first 200mm of material processed.

Stock No.	Description	Price
925565	22 x 35mm ..	\$128.95

ADI® Electroplated CNC Fingerbit
for Marble

Stock No.	Description	Price
925594	16 x 45mm ..	\$169.95
925592	16 x 35mm ..	130.00

ADI® Segmented CNC Fingerbit For UCS

for cutting Ultra Compact Surfaces [UCS]

Six segment bit designed with an all new bond for fast, clean cutting of very hard materials. The ADI UCS finger bit mills through ultra compact surfaces cleanly with long life.

• 1/2" Gas connection

Stock No.	Description	Price
913128	19 x 38mm.....	\$129.95

ADI® Hydro Segmented CNC Fingerbit
for Engineered Stone and Granite

- 1/2" Gas connection
- Wet cutting only

Stock No.	Description	Price
927626	22 x 35mm ..	\$147.24

ADI® Solution Segmented CNC Fingerbit
for Engineered Stone and Granite

- 1/2" Gas connection
- Wet cutting only

Stock No.	Description	Price
927622	22 x 35mm ..	\$123.07

ADI® Magnificat Segmented CNC Fingerbit
for Engineered Stone and Granite

- 1/2" Gas connection
- Wet cutting only

Stock No.	Description	Price
927624	22 x 35mm ..	\$120.87

ADI® Falcon CNC Fingerbit

Designed to provide durability and fast, smooth cutting on granite, engineered stone and a variety of hard surfaces using 6 low profile segments and nearly twice the number of water holes as competitors' finger bits.

- Wet use only
- 1/2" Gas connection
- Lowest cost per linear foot

Stock No.	Description	Price
939000	22 x 35mm	\$133.95
939001	22 x 48mm	169.95

ADI® UHS Segmented CNC Fingerbit

For use on medium hard stone.

- Wet use only, Ultra High Speed
- Achieves rates of 500-600mm/min

Stock No.	Description	Price
925563	22 x 35mm	\$128.95
925566	24 x 48mm	153.99

Bronze Segmented CNC Fingerbit

For use on medium hard stone.

- Wet use only
- 1/2" Gas connection

Stock No.	Description	Price
925596	22 x 35mm	\$128.95

Blue Segmented CNC Fingerbit

For use on medium hard stone.

- Wet use only
- 1/2" Gas connection

Stock No.	Description	Price
925584	22 x 35mm	\$128.95
925586	24 x 48mm	153.45
925585	26 x 60mm	251.95
925528	22 x 48mm*	165.00

*With Bottom Segment

Red Segmented CNC Fingerbit

For use on hard stone.

- Wet use only
- 1/2" Gas connection

Stock No.	Description	Price
925588	22 x 35mm	\$128.95
925590	24 x 48mm	153.45
925591	26 x 65mm	275.00
925587	22 x 35mm*	190.00

*With Bottom Segment

Black Segmented CNC Fingerbit

For use on porcelain and glass.

- Wet use only
- 1/2" Gas connection

Stock No.	Description	Price
925597	22 x 35mm	\$188.95

Silver Segmented CNC Fingerbit

For use on abrasive stone.

- Wet use only
- 1/2" Gas connection

Stock No.	Description	Price
925580	22 x 35mm	\$128.95
925582	24 x 48mm	153.45

GranQuartz® Blue Thunder CNC Fingerbit

Formulated for high speed cutting on all types of granite and engineered stone surfaces. Reinforced segment design for better rigidity.

- Wet use only
- 1/2" Gas connection
- 6 Segments

Stock No.	Description	Price
935175	20 x 40mm, 6 Segments.....	\$109.95

Pulsar® 8-Segment High Speed CNC Fingerbit

Pulsar's high speed 8 segment fingerbit runs at speeds up to 25" per minute! Excellent results on hard & soft granite and engineered stone. Max. 7,000 rpm.

- Wet use only
- 1/2" Gas connection

Stock No.	Description	Price
445517	3/4" D x 1 1/2" L.....	\$285.00

Diamond Wright® Electroplated CNC Fingerbit

DW finger bits have 1/2 gas connection with center water feed and can be replated when exhausted.

- Wet use only
- 1/2" Gas connection
- Electroplated diamond

Stock No.	Description	Price
924008	1" D x 4" L.....	\$285.00

**Zenesis®
CNC Fingerbit**

For use on Granite and engineered stone.

- Wet use only
- 1/2" Gas connection
- RPM: 4,200 (hard material) to 5,500 (softer material) with a feed rate of 12"-16" per minute

Stock No.	Description	Price
360724	20 x 40mm, 4 Segments	\$92.50
360725	22 x 50mm, 4 Segments	103.00
360726	20 x 40mm, 7 Segments	92.50
360727	22 x 50mm, 7 Segments	103.00

**Super Cyclone®
Seven Segment Fingerbit**

For high speed cutting on granite and engineered stone surfaces. Reinforced segment design for better rigidity. Great for ultra hard materials.

- Wet use only
- 1/2" Gas connection
- 7 Segments
- Feed rate: 10" - 20"/min.
- Speed: 4500 - 6000 RPM

Stock No.	Description	Price
359518	22 x 40mm, 7 Segments	\$119.95

**Weha®
Top Racer
8-Segment
CNC Fingerbit**

Weha's high speed 8 segment fingerbit runs at speeds up to 36" per minute on hard & soft granite and engineered stone.

- Wet use only
- 1/2" Gas connection
- Max speed: 8,500 RPM

Stock No.	Description	Price
445510	3/4" D x 1 1/2" L	\$135.00

**Dongsin®
Absolute Fingerbit**

Formulated for high speed cutting on all types of granite and engineered stone surfaces. Reinforced segment design for better rigidity.

- 1/2" Gas Connection
- 5 Segments

Stock No.	Description	Price
116785	20 x 40mm, 5 Segments	\$136.95
116786	22 x 50mm, 5 Segments	145.95

**Cayenna
CNC Fingerbit**

For use on Granite and engineered stone.

- Wet use only
- 1/2" Gas connection
- 4 Segments

Stock No.	Description	Price
360694	20 x 40mm, 4 Segments	\$93.00

Medium bond
5,500-6,000 RPM @ 14-20 IPM

**Orange Krush
CNC Fingerbit**

For use on Marble, Granite and engineered stone.

- Wet use only
- 1/2" Gas connection
- 5 Segments

Stock No.	Description	Price
359522	23 x 40mm, 5 Segments	\$94.45
359530	25 x 70mm, 5 Segments	178.45

Soft bond
5,500-6,000 RPM @ 15-20 IPM

**Orange Krush Hybrid
CNC Fingerbit**

For use on Marble, Granite and engineered stone.

- Wet use only
- 1/2" Gas connection
- 6 Segments

Stock No.	Description	Price
359529	20 x 40mm, 6 Segments	\$104.95

Soft bond
5,500-6,000 RPM @ 15-20 IPM

**Yellow Jacket
CNC Fingerbit**

For use on Hard stone surfaces.

- Wet use only
- 1/2" Gas connection
- 6 Segments

Stock No.	Description	Price
359527	23 x 40mm, 6 Segments	\$83.95
359528	23 x 50mm, 6 Segments	94.95

Softest bond for hard stone
5,500 RPM @ 10-12 IPM in HARD Stone
6,500 RPM @ 15-20 IPM in SOFT/MED. Stone

**Rival Twin Turbo
CNC Fingerbit**

For use on Hard stone surfaces.

- Wet use only
- 1/2" Gas connection
- 8 Segments

Stock No.	Description	Price
360738	20 x 40mm, 8 Segments	\$79.95

Soft bond
5,500-6,000 RPM @ 12-20 IPM

**Dongsin® Twin Segment
CNC Fingerbit**

For use on Hard stone surfaces.

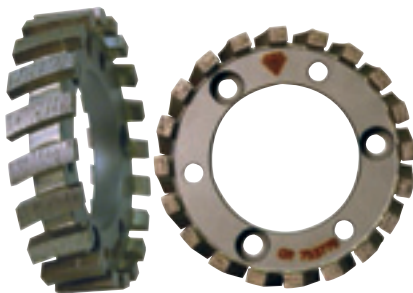

- Wet use only
- 1/2" Gas connection
- 8 Segments

Stock No.	Description	Price
116782	20 x 40mm	\$126.00
116783	20 x 45mm	132.00
116784	23 x 50mm	140.00

UHS Heavy Duty Stubbing Wheel

Stock No.	Description	Arbor	Price
926127	54 x 25 x 7mm.....	10mm	\$218.95

925541	91 x 30 x 7mm	50mm	\$345.00

Stubbing Wheel 35mm Bore CNC Cones

Stock No.	Price
925539	\$110.00

Stubbing Wheel 1/2" Gas Connection

Stock No.	Price
926050	\$91.00

XPert Super Z 3cm Profile Wheel

For high speed stock removal, cutting notches for back splash, scribe to a digital template. Faster than a traditional fingerbit.

Stock No.	Price
359523	\$346.45

Pro Series® CNC Cones

Pro Series cones are made of 4150 pre-hardened alloy steel, heat-treated with permanently infused surface hardness to Vickers 1880 (75+ Rockwell C) with diffusion zone (approx. RC 60) and an RC 28-32 core hardness.

Surface hardness withstands the 72 hour salt spray corrosion test under ASTM B117 conditions, reducing surface flaking and galling. Pro Series cones are taper ground to a maximum of .0001 concentricity for long wearing spindle fit, superior accuracy and no vibration.

Lubricate Your Cone

Use TK Line White Grease to lubricate your CNC cones & CNC tooling. TK's Zinc oxide grease will prevent your profile tooling from seizing up on the cone, and will make tool removal much easier.

TK Line White Grease.....#928016

Stone Pro® Adjustable Polishing Adapter

- 1/2" of Travel to compensate tool wear and varying thickness without changing Z height
- Adjustable Pressure
- Polish Drain Board, Backsplashes, back of stone
- 1/2" Gas Thread with Snail Lock Adapter
- Center Water Feed
- Includes Wrench for Easy Tool Changes

Stock No.	Description	Price
500116	Adjustable Polishing Adapter.....	\$495.00
500117	Rigid Polishing Adapter.....	238.95

Ad-Vise CNC Tool Press

Removing tooling from CNC connection cones can be extremely difficult when the tooling becomes worn, rusted or bound to the cone from use. Damaging the bore or profile surface by aggressive tool removal can mean ruining the tool. It is very important to safely remove the tooling in a manner that enables EDM processing, increasing the useful life of the bit.

Stock No.	Description	Price
981771	Ad-Vise CNC Tool Press, Park Gen II.....	\$1,895.00

ADI® Super Duty CNC Core Bits

ADI's new Super Duty Core Bits manufactured with a 2mm thick segmented crown. The thicker segment reduces the chance of the "mushroom effect". The bit has both 1/2 gas & 5/8-11 thread for use on CNC systems and hand held machines.

- For granite
- Length: 4" or 2 1/2"
- 1/2" Gas Connection
- Made in Italy
- Wet use only
- Premium quality

Stock No.	Length	Inside Diameter	Suggested RPM	Price
927907	4"	1 1/4"	2,400	\$95.00
927908	4"	1 3/8"	2,200	97.00
927909	4"	1 1/2"	2,200	99.00

CNC TOOL MEASURING AUTOMATION

ZOLLER SMILE Pilot CNC Tool Preset Measuring System

The newly designed Smile Pilot 3.0 tool presetter and measuring machine for CNC profile tools continues the success story of the ZOLLER Smile series. The new compact, robust, and ergonomic design makes it perfectly suited for use in a production environment. A special highlight is the user-friendly and state-of-the-art Pilot 3.0 image processing technology that comprises a variety of measuring programs.

Basic Equipment:

- Smile base table
- High precision SK 50 spindle with integrated calibration edge and spindle indexing
- Membrane keyboard for power-operated tool clamping, spindle brake, and spindle indexing
- Image processing with telecentric objective and CCD camera with integrated incident light multi LED lights
- 11th generation of measuring machine control
- Windows 7 64-bit Multilingual operating system
- 24" anti-glare multi-touch display with solid frameless glass surface
- Screen resolution 1920 x 1080 pixel
- 1 x USB 3.0 interface
- 6 x USB 2.0 interfaces
- 2 x RJ45 network connection
- 4 GB working memory
- Storage for at least 15,000 adapters and tool steps

Technical Data:

- Max. tool length Z: 400 mm/600 mm
- Max. tool diameter X: 420 mm
- Snap gauge diameter: 100 mm*

*Note: When selecting the "snap gauge" option, the maximum tool diameter in X is reduced to 320 mm.

Stock No.	Description	Price
981663	ZOLLER Smile 3.0 Presetter, Full CNC	\$51,956.00
981664	Lasso Software	5,724.64

Advant Edge Dressing Machine

Variable speed drive to allow user to control speed from 0-3,000 RPM.

- Precision Spindle that promotes precise rotation
- Fits any 40 taper tool holder
- Fits abrasive tooling up to 5" diameter
- Fits a 40 taper tool holder equipped with an RK1 or RK3 retention knob
- Gen II Park
- Gen III Northwood
- Intermac
- Brembana
- Baveloni

Not currently available for Breton HSK-80

- Additional 15amp GFCI outlet for plug-in options
- Dampening pads for minimal vibration and noise

Stock No.	Description	Price
981598	Advant Edge Machine.....	\$6,795.00
981600	HSK Adapter.....	977.50

Installation Requirements and Recommendations:
 Requires installation of a 110V 15 amp Twist Lock Receptacle
 Place in a dry and well lit area
 Port attached for Wet/Dry Vac on rear of tool housing

Dressing Sticks

Stock No.	Description	Price
361053	Black, 1 x 1 x 6"	\$6.95
361052	White, 1 x 1 x 6"	2.95

ADI® CNC Blades

For use with CNC machines including Brembana, Ravelli, Breton, Bavelloni and other popular machines.

Alpha® GEM Flat Polishing Wheels

Alpha's new GEM line is a polishing system for all types of stone surfaces and is perfect for producing straight and beveled edges.

Gem polishing wheels are long lasting and provide fast, consistent results. Gem wheels are designed to fit most edge polishing machines and are recommended by Cosentino® as a Dekton® polishing system.

- Available in 5" and 6" diameters, with snail lock connection
- Tsuya final polishing step for the highest possible shine
- Available in 5" and 6" diameter
- Velcro® Backing (no wrenches needed for tool changes)

Diarex® ICE HYBRID Combo Wheels

Grits 50-400 increase the life of the lower grits on radius edge polishing applications. White resin reduces burning and "bleeding" on engineered stone.

- For flat or radius edges on Granite and Engineered Stone surfaces
- Snail-Lock attachment, 8mm thick

**HYBRID TECHNOLOGY
INCREASES LIFE
OF LOWER GRITS!**

Black Magic® Combo Edge Polishing Wheels

Black Magic Combo Edge wheels are excellent for use on all edge machines when producing flat or radius edges. The white resin performs exceptionally well on materials including granite and marble and avoids "burning" engineered stone. For optimal results in shops that produce 50/50 natural stone and quartz surfaces, use the 4 COPPER positions followed by RESIN polishing wheels. For Quartz surfaces, stop with 2,000 Grit.

- For polishing radius and flat edges on granite, marble, and engineered stone
- Snail-Lock attachment

Tenax® Combo Polishing Wheels

Tenax Combo Wheels are excellent for all materials including granite, marble, engineered stone, and porcelain. The wheels are color coded for easy identification, and are available in 10 grits in sequence from 60# to 3000#, 5" & 6" diameters. The light colored resin was specifically designed to work on lighter color engineered stones eliminating resin "bleeding" into material.

- For polishing radius and flat edges on granite, marble, and engineered stone
- Snail-Lock attachment

BREATHE EASY.

Duroair Filtration Systems EXCEED OSHA REQUIREMENTS! **Duroair™**
the evolution of air

Retractable dust enclosure closes to 20% of the extended length allowing for maximum use of shop space.

Duroair Dust Containment System

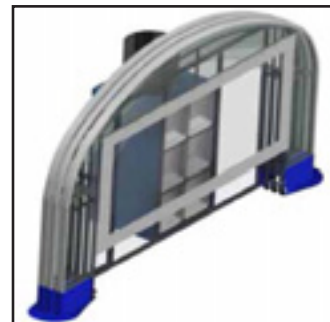

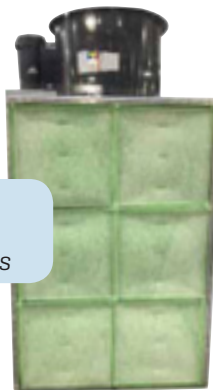

Duroair's Silica Dry Dust Collection System is a fully enclosed work space that is modular, portable and retractable. The Duroair enclosure retracts down to 20% of length for easy handling and portability. Negative pressure pulls all particulates into the system's 4-stage, Merv15* filtration system with the air leaving the system exceeding OSHA requirements.

- Captures all particulates to 1 micron
- 8 air changes per minute, airflow 150 feet/minute
- 30" Fan, 10 HP with variable fan speed
- 14 1/2' x 14 1/2' x 8' Tall when fully extended
- Can be easily moved around shop space

*Minimum Efficiency Reporting Value 15

Stock No.	Description	Price

4-Stage, Merv15* Filtration Unit with Self-Cleaning Filters

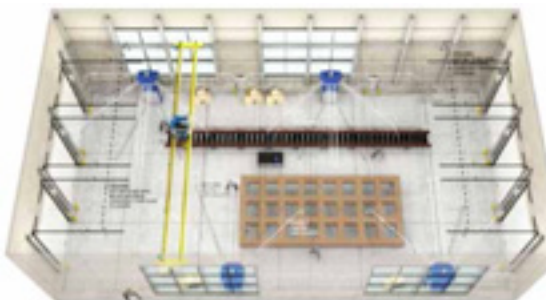

DuroTower Auto Adjusting Plant Cleaning Systems

Fabrication processes produce dust and fumes that have been associated with impaired health which translates to decreased productivity. DuroTower efficiently collects these dangerous contaminants and fills the space with clean air from the system outlet and can be used with a DuroRoom™ for effective clean room, isolation room, or dust collection applications. The DuroTower is a cost-effective air revolver system that is ten times more energy efficient than traditional overhead dust purification systems. Flexible with multi-tower models that can be outfitted with casters for portability and environmentally compliant with air rotation technology that removes airborne particles down to 1 micron. DuroTower reduces energy costs through the de-stratification of heat layers, homogenizing air from floor to ceiling to within 5 degrees.

- 8,000 - 30,000 CFM design range
- Small footprint: 40" x 50"
- Available height options of 11' or 14'
- Power: Three phase 208-230/460 volt
- Multiple filter stages for various contaminant situations
- 10 and 16 gauge welded steel construction
- Industrial enamel finish
- Easy two-section installation

World's First Auto-Adjusting Plant Cleaning System Using State of the Art Air Rotation Process

Energy-Efficient Air Purification for the Entire Shop Floor

Weha Dry Wall Dust Collector

The WEHA Filter Project Clean Air Dry Dust Collection Booths provide a major advantage in removing silica dust from the air. Weha Dry Dust Collectors vacuum air from the bottom of the unit so that the air flow is coming from below the knees, creating a downward pull of air. The major advantage of this air flow movement is that the dust is pulled down from the work table immediately away from the face. This design is the absolute best way to reduce as much dust from the workers as fast as possible.

- Especially suited for extracting silica dust
- Automatic Self-Clean mode for easy maintenance
- Dust settles in drawers located at the bottom of the unit

Stock No.	Description	Price
060603	Dry Dust Wall 3 Meter, 4HP 220/3-Phase	\$18,950.00
060604	Dry Dust Wall 4 Meter, 8HP 220/3-Phase	21,600.00

Weha Water Wall Dust Collector

With the additional requirements initiated by OSHA for Silica in the granite and engineered stone, the Filter Project Clean Air Water Collection Booth will be a major advantage in removing silica dust from the air. The operation of the Water Wall Dust Collector is extremely easy- push the button and work in front of it. The dust will be vacuumed horizontally into the water wall without the fabricator breathing any of the dust. Designed to trap 99% of granite dust, marble dust, engineered stone dust, quartz dust, concrete dust, natural stone dust, and other fine airborne particles.

- Electrical requirements: 220 (208) 3 phase, 20 Amp breaker
- Water requirements: 400 gallons

Stock No.	Description	Price
060601	Water Dust Wall 3 Meter, 5.5HP 220/3-Phase	\$14,720.00
060602	Water Dust Wall 4 Meter, 8HP 220/3-Phase	16,550.00

Novair 1000 Portable HEPA Air Filtration System

The Novair 1000 is a light, compact HEPA filtration system for use anywhere dust is a concern.

- 1000 cubic feet per minute with filters in place
- Powerful 1 HP, 2-speed motor
- Vertical "hand truck" profile with non-marring skids & wheels
- Utilizes HEPA filters or Nuisance dust filters
- Polyethylene, dent-proof shell
- Small footprint is great for tighter work areas
- With Audible & visual alarm

Stock No.	Description	Price

Metabo® ASR35 HEPA Wet/Dry Vacuum

The METABO ASR35 ACP Vacuum meets or exceeds all regulatory standards concerning HEPA vacuums and provides the highest level of job-site dust containment. The ASR35 ACP is made in Germany. Use for extraction from the power tool in continuous mode, both on construction sites and in the workshop, this compact vacuum cleaner is great for removal of liquids and dry solids. Utilizes AutoCleanPlus to save costs and time thanks to automatic MPulse filter cleaning allowing for continuous use. If the vacuum senses a pressure difference from one side of the filters to the other, the filters are vibrated immediately, clearing the filters without interrupting suction.

- Especially suited for extracting concrete and rock dust
- Suction power control for adapted suction performance
- Power socket- vacuum starts automatically when a tool plugged into the tool outlet is turned on
- Twin polyester filter cassettes with large filter area for constantly high suction capacity

Makita® VC4710 XTRACT 12 Gallon HEPA Wet/Dry Vacuum

A powerful 12 AMP motor generates 135 CFM of suction power and 92" of water lift to take on the most challenging applications.

Motor chamber is constructed of quality sound-absorbing materials resulting in a quiet operating sound level of 59 dB(A). Automatic Filter Cleaning System with blow-back feature is timed at set intervals to maintain filter performance for longer filter life.

- 126 CFM
- 35 lbs.
- 120V / 11.5 AMP
- Holds up to 40 lbs. of dust & debris

HydroCycler Filter Press Water Recycling

The HydroCycler uses filter press technology that is industry proven and reliable. The system compacts the sludge into easy to dispose of cakes and provides very clean water suitable for all demands in stone fabrication.

- 100% closed loop, zero discharge recycling system
- Reduced water usage/reduced water costs
- Creates dry cakes for immediate disposal to land fill
- Flow rates of 6gpm to 200gpm

GelMaxx Slurry Products

GelMaxx slurry products have a unique formula using organic materials making them safer for the environment and operators, while maintaining EPA compliance.

GelMaxx ECO-QUICK gel solidifies & absorbs slurry into a dry material and can be disposed immediately in any standard trash container.

GelMaxx AQUAmaxx separator reduces the amount of slurry while producing reusable water for machinery.

Stock No.	Description	Price
113466	35 lb. Bucket Eco-Quick Gel	\$180.00
113467	50 lb. Box Eco-Quick Gel	250.00

GelMaxx AQUAmaxx is a proprietary blend with special additives that will separate suspended solids from processed slurry water. AquaMaxx separates the solids within minutes, and can handle light, medium, and heavy stone & concrete slurry. This powerful material will reduce the amount of slurry waste by removing the usable water which can be reused back into machinery.

Stock No.	Description	Price

2-3 tbsp.	1 gallon
2-3 quarts	55 gallons

5 Gallons of AquaMaxx can separate approximately 450 gallons of slurry water.

PRISTINE WATER RECYCLING SYSTEMS

GranQuartz helps you save on your water bill!

Solutions to remove suspended solids from stone fabrication water waste streams using one of two methods - Settling or Filtration

Recycling water in the stone fabrication industry is now common place and increased enforcement of pollution control regulations along with rising costs of water and sewer have made it imperative that stone fabricators look to water recycling. Water recycling provides you with a solution for regulatory concerns and saves on your monthly water costs as well, with typical savings of up to 90%.

All GranQuartz® water systems are made in the USA. Components are rugged and durable for long life and strong performance. Two primary systems are offered; the HydroSettler and the HydroCycler, in multiple sizes and configurations.

HydroSettler

Utilizing rapid settling technology from industrial wastewater treatment the HydroSettler removes over 95% of the solids from the slurry water stream in real time with very little maintenance.

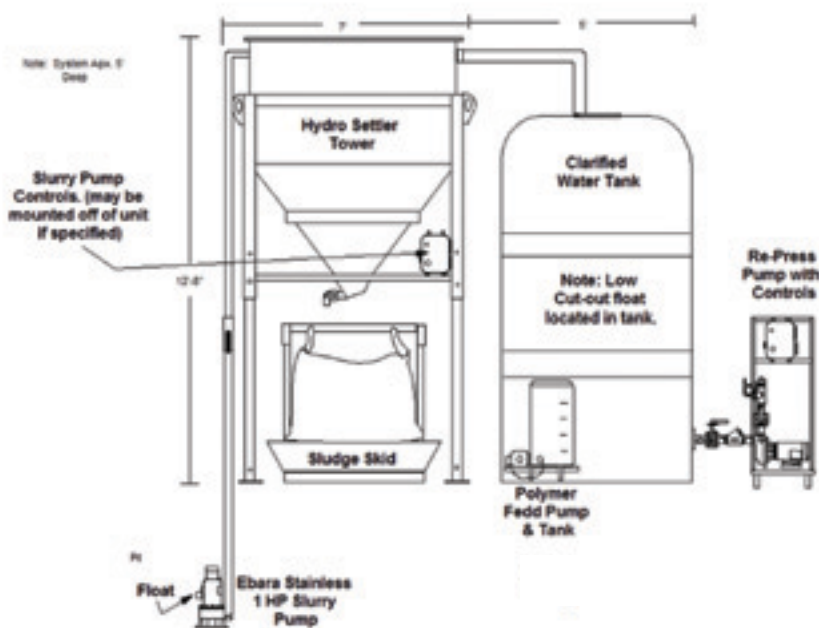

- 40gpm to 100gpm gray water system
- 100% closed loop, zero discharge system
- Easy maintenance and operation
- High solids removal
- High quality gray water

HydroCycler

Filter Press Water Recycling

The HydroCycler uses filter press technology that is industry proven and reliable. The system compacts the sludge into easy to dispose of cakes and provides very clean water suitable for all demands in stone fabrication.

- 100% closed loop, zero discharge recycling system
- Reduced water usage/reduced water costs
- Creates dry cakes for immediate disposal to land fill
- Flow rates of 6gpm to 200gpm

SASSO Flying Flat Vertical Edge Polisher Quality Edge Options From a Compact Machine

SASSOAMERICA's Flying Flat features a patented design providing high volume, high quality edging productivity. A waterproof, multi-control keyboard coupled with new ergonomic coverings protect the machine from rust and corrosion, extending the machine life. The multifunction spindle is able to do water-drip, calibration and edge beveling. Mechanical parts are readily accessible via large, pneumatic opening doors. A fully guided belt helps to maintain stability during vertical work.

- 5 Fully-encapsulated polishing spindles equipped with micro oscillation
- 1 Fixed-position front spindle provides stock removal of .5mm per minute
- 2 Bevel/chamfer spindles
- Belt speed indicator
- Anti-corrosion protective shell

#102007
\$57,999.00

Adjustable belt speed is achieved using speed settings and inverter for functionality.

Horizontally positioned control panel for ease of operation and faster processing time.

Spindles are equipped with independent motors and encapsulated, waterproof bearings.

Easily opened pneumatic doors for access during maintenance procedures.

Slab Specifications:

- Minimum Thickness: 0.787"
- Maximum Thickness: 2.36"
- Maximum Radius: 1.97"

Equipment Specifications:

- Maximum Power: 15.5 HP
- Weight: 4,400 lbs. (approx.)
- Tape Advancing Speed: 1.31' - 6.56'/minute
- Air: 90 PSI at 3-5 CFM
- Water: 15-25 Gallons Per Minute
- Electric: 3 Phase Power Required (208v/220v/240v)
- Dimensions: 4.92' H x 7.87' W x 3.94' D

ELaser Xpress 2D/3D

The ELaser Xpress series delivers a more economical solution for many digital templating and measuring needs. ELaser Xpress 2D measures any 2D surface as well as freeform curves. Use the quick settings feature to predefine specifications for overhangs, corner radii, backslashes, and more to automate countertop design, reducing editing and increasing efficiency. Easy to use icons identify tools to measure points, lines, arcs, circles, rectangles, splines, and polylines for custom measuring. Import and export DXF, DWG, IGES, and more for engineering and fabrication. Advanced best-fit algorithms improve accuracy and installation fit. Xpress 3D includes all 2D functionality and a complete 3D measuring and modeling system for as built construction. Integrate with popular industry leading software such as Cabinet Vision, 2020, KCD, Mozaik, & ProKitchen to complete your design.

- Countertop Templating/Full Height Backsplash
- Shower Enclosures/Tub Surrounds/Fireplaces
- Wall Cladding, Stair Treads
- Cabinet Layout and Design (Xpress 3D Only)
- 3D Modeling/BIM (Xpress 3D Only)
- Indoor/Outdoor
- Quality Control/Construction Verification
- 1mm Accuracy, Fast Setup, Easy-To-Use
- Installs On User Provided Windows 10 Laptop
- User Manual and Video Library Included

Use Your Windows 10 Laptop

Recommended Computer Specifications for ELaser Systems:

- Laptop Computer
- 1920x1080 Max Resolution Screen, Keyboard w/touchpad.
- Windows 10 Pro or Home
- Core i3 (7th Gen or Newer) processor
- 4GB DDR4 RAM
- SSD (Solid State Drive)
- 2 USB Ports Minimum
- 8-10 Hours Battery Life

System Includes: Laser Head, Tripod, Cradle, Countertop Markers, 4 Rechargeable Batteries and Charger, Rugged Carry Case, Measure Manager(MM) Software, System User Manual, 3 Year Warranty & MM Software Updates(Registration Required), Training, and Lifetime Technical Support.

FARNESE MARC5 CNC BRIDGE SAW

Farnese® MARC5 5-Axis CNC Bridge Saw

The MARC5 is the new breed of 5 axis bridge saws for the stone industry. It has a full CNC controller which coupled with the very easy to use front end program, makes this machine one of the most versatile saws available in the market. The head/blade mechanism rotates a full 360° allowing the operator to make angled and circular cuts as well as tilting from 90° to 0° for drop in sink work.

The MARC5's CNC programming allows the operator to use the machine in four different modes: manual, parametric, semi auto and full auto. In manual mode, the operator, apart from the normal functions, can operate the machine to cut at any angle across the table in any direction. In full automatic modes, will make cut

in any direction, as well as curves and circles. DXF files can be imported and programmed making the machine compatible with most digital templating machines out in the market. The spindle has a 1/2" GAS attachment that allows to fit a drill, this feature can be programmed to drill out the corners of internal cut outs for easy removal of the internal piece.

The machine is also fitted with a tilting table that can be operated from the front panel. The Monolithic Design is a great space saver in today's shop with no compromise in the "Full Slab Cutting" sizes.

FARNESE LYNX PLUS BRIDGE SAW

Farnese® Lynx Plus 20 HP Bridge Saw

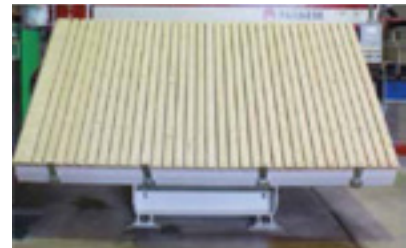

The Farnese LYNX Plus Bridge Saw is an upgraded entry level bridge saw with user-friendly controls and a compact design packed with high quality features.

- 20 HP Direct Drive Motor
- Wireless Remote Pendant
- Pneumatic Table Lock
- Programmable automatic repeat cuts
- Pneumatic 45° tilting head with plunge cut capabilities
- Hydraulic tilting table for easy loading.
- Laser is mounted to the saw head rather than the bridge.
Projects accurate cut line in both 90° & 45° positions.
- AC servo motors for smooth precision movements.
- Central lubrication for easy maintenance.
- Faster cutting modes available in manual mode and semiautomatic mode.

Farnese® ALEXIA GEN2 Automated Sink Cutout Machine

The ALEXIA GEN2 automates the cutting, drilling and polishing of sink cutouts and is the ultimate solution to affordable stone processing without compromising on quality. The machine has automatic tool changing with 23 stations.

An excellent feature of the ALEXIA is its user-friendly interface, the Software has been designed for MS Windows and is intuitive and simple to use. It is pre-loaded with common sink templates listed by brands including Oliveri, Franke, Clark and Blanco. Many other sinks sizes and shapes can be easily created using the parametric section extending the machine's cutting capabilities.

Fab King® Sink Cutout Machine

Cut out any sink shape using a template in as little as 8 minutes and drill utility holes in seconds with minimal tool wear. Edge profiling is quick and easy with no threat of scratching the surface. Other features of the Fab King include surface polishing and honing, and back-splash polishing.

- Motor: 3hp, variable speed 2,700-10,000 rpm
- Electrical: 220 volt single phase

- Water consumption: 3 gallons per minute
- Travel: 114" L, 30" W, 8" H
- Connection: 1/2 gas, water fed
- Movement: precision control raise/lower with friction brake
- Working Area: 3-point adjustable work surface
- Dimensions: 11' 9" L x 5' 11" H x 3' 8" W

Recon® Incremental Finger Bit

For use on sink cut-out machines.

- 20 x 23mm
- Max RPM: 4,000-9,000

\$72,750
#931162

Farnese® EasySink Cutout System

Create sink cutouts both cut and polished with ease using the EASYSINK, this compact CNC machine was designed to simplify the task of doing sink cutouts at an affordable price.

The EASYSINK comes with a user-friendly touch screen interface to machine sink cutouts parametrically. This EASYSINK allows you to machine simple shapes (square, circles, ovals) changing dimensions and the radius for corners with common sink templates. Sink cutouts can be processed within the front and rear pneumatic clamps up to 1200 by 600mm on slabs over 3 metres long by 700mm. An optional laser indicator can help precise aiming of the cutout and the machine is also equipped with a manual tool changer and lubrication pump. The EZ Sink has a small footprint, saving valuable space in your shop.

Farnese® Technicut CNC Bridge Saw

The TECHNICUT CNC Saw is a full 5 axis CNC controlled saw fitted with side vacuum manipulators for ease of movement of the material with thickness measuring probe. Even though it is a full CNC controlled 5 axis machine, the operator can still use the machine manually as if it was a simple standard bridge saw. The machine is fitted with a separate pendant station that allows the operator movement in order to use the machine for quick manual cuts. It can also work in a Semi-Automatic Program in which the operator can quickly and easily program all the cuts in the X and Y axis allowing for quick trimming and rectangle production. The CAD/CAM system supplied with the machine allows any 2D shapes to be produced including vacuum moves. You can also perform simple or complicated cuts using the vacuum manipulator whenever you have blind or curved cuts. The spindle has a 1/2" GAS attachment that allows to fit a drill. This feature can be programmed to drill out the corners of internal cut outs for easy removal of the internal piece. Internet connectivity makes it is possible to log into the machine remotely from our office to help trouble shoot any issue provide further online training.

Farnese® Studio Block Saw

Farnese's STUDIO saw is great for sandstone fabrication accommodates a cutting blades up to 1000mm in diameter which enables a work place of up to 370mm to be cut. A standard table for heavy sandstone and monument work. The paint is a two pack undercoat, with a splatter finish top coat and color final coat, making it resistant to corrosion and scratches.

PORCELAIN

Porcelain is taking the fabrication industry by storm and we understand why. It has a reputation for being one of the most durable, hygienic, attractive and easily maintained surface choices available for the modern home, with a wealth of color and texture options. In anticipation of this, we present a small selection of our tooling & equipment chosen specifically for the fabrication and installation of porcelain and other lighter surface materials.

Manzelli® EXE 16PN GRES Thin Material Power Tilt Vacuum lifters

Manzelli's EXE 16PN GRES lifter is specifically designed for lifting porcelain and thin slabs. It is powered by compressed air with an aluminum ejector and nylon silencer, with an operating pressure (for vacuum creation) of 6 bar.

- Air consumption: 120L/Min.
- Manual or pneumatic tilt from 0° to 90°
- Weight capacity: 793.664 Lbs. (360 Kg)
- Electronic self-governing lighted/acoustic alarm system, complete with battery charger

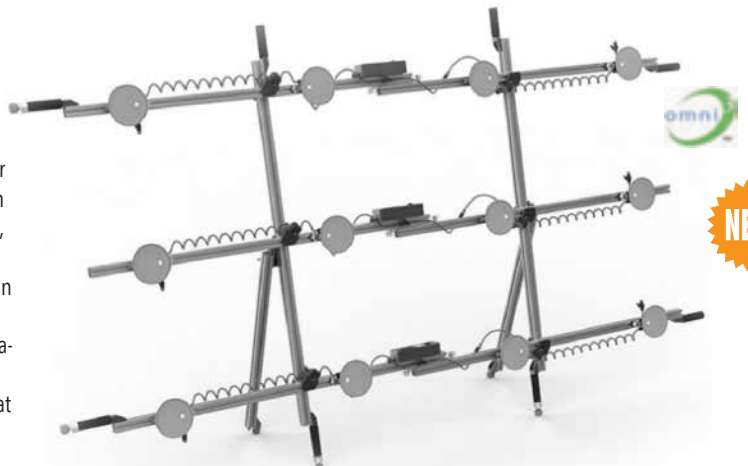

NEW!

Omni Cubed® S3 - Slim Slab Saver™ Porcelain Frame

Omni Cubed S3 frames are customizable rigid frame and reinforcement system for handling large format porcelain slabs and other fragile materials. S3 frames are an ideal solution for transport and installation of LFTMTM (large format thin material), gauged or thin porcelain slabs such as Laminam®, and sintered material such as Neolith® or Dekton®. Non-marking 6" vacuum cups feature an ultra-concave design for fast attachment to bowed or leathered surfaces, and have a flexible triple seal for a secure, reliable hold. Cups, clamps, and rails can be arranged in any configuration for a variety of applications and easy-grasp knobs enable quick repositioning of every component in this system. Each clamp has an integrated "resting foot" that won't scratch finished surfaces or flooring when material is inverted. Adjustable leveling legs with resting feet are incorporated into handles to allow upright resting and leveling of the material. Kickstand (available option) provide hands-free support for applying mortar or adhesive. Durable, UV-resistant foam grips provide a comfortable handle for safe transport.

- Powerful yet compact pump that has a built-in rechargeable battery providing vacuum pressure for up to 5 continuous hours on a single charge
- Spring-loaded mounting pins hold the pump flush with the rail so it doesn't interfere with vacuum cup placement
- Rails extend from 61"-112" (155-284 cm) to accommodate material up to 118" (300 cm) in length
- Each vacuum cup accommodates up to 70 lb (31 kg); each rail can handle up to 200 lb (90 kg)

Blue Ripper Miter Master Rail Saw for Porcelain

Light-duty (28 Lb.) version of the Blue Ripper Miter Master for cutting porcelain, large format tile and other thin materials. Uses 2 grinders to simultaneously cut BOTH matched 45° angles. Rails available separately, fits all Blue Ripper Rails.

- One hand water disconnect with 10' water hose
- GFCI protection
- Weight: 28 Lbs.

NEW!

Abaco® Porcelain Lifters

Designed to lift and move porcelain and other materials which are flat, long, thin, delicate, and breakable. Clamping mechanism is fully automatic and the large surface contact area for the material is covered by rubber pads to prevent damage to materials when lifting. Two guide shafts lead the lifter into position and four lower wheels allow for easy maneuvering when not in use, with four upper wheels providing pressure and acting as a guide to center slab within the two clamps.

- Made of strong, lightweight aluminum

Raimondi® Easy-Move Transport System

4th Generation Easy-Move Frame system is perfect for handling large format tile/porcelain surfaces. Weight has been reduced and the frame is now equipped with RV175 vacuum cups made using stain free, light colored rubber with die-cast aluminum bodies and are great for handling textured surfaces. 4 Sliding rubber gripped handles provided w/non-slip, stain proof grommets for excellent ergonomic function even when performing vertical installations.

- Perfect for handling large format porcelain/tile surfaces
- Vacuum cups can be adjusted into any position along rails
- Crossbars can easily be tilted at angles to adapt to any slab layout
- Max. slab length: 10½', Min. slab length: 3.3'

Raimondi® Easy-Move Cart

Specially designed for the transport and handling of large format tiles (10.5' x 5.25' x 15/32"). The Raimondi Easy-Move Cart allows you to easily and safely spread adhesive on the back of the tile while loaded on cart. It comes with two height-adjustable hooks for holding the cart while slab is loaded and ready access to the suction cups while used with the Easy-Move frame on the cart allows you to restore suction easily if needed, which is particularly important when installing textured large format tiles.

- One side of cart can be used to transport slabs short distances
- 2 height-adjustable rubber supports (storage side) prevent damage to material (slabs)
- Telescopic, fully-adjustable safety hooks prevent slabs from falling
- Wooden platforms with rubber edges on both sides of the cart
- Two of the four pivoting wheels lock in place
- Vacuum cups can be adjusted into any position along rails
- Strong, lightweight aluminum components
- Max. load: 551 Lbs.

WORK STATION CRANES

Granquartz offers a complete line of GORBEL overhead crane systems and accessories which are produced in the USA and are shop tested and proven.

Let our trained Gorbel specialist help you determine your crane system requirements, and design and quote the complete overhead structure custom-built to your specifications. These systems may include Work station Cranes, Jib Cranes, Gantry Cranes, Hoists, Vacuum Lifters, and more. Contact Granquartz to choose one of many standard crane designs or design a system custom built for your shop.

Gorbel® Free Standing Work Station Bridge Cranes

- Weight Capacities from 250 to 4000 lbs
- Spans up to 30 Feet
- Easy Installation, Movement & Positioning
- Increased Productivity
- Steel & Patented Aluminum
- Enclosed Tracks
- Modular Design

GranQuartz is the only Nationwide Stone Industry Distributor authorized by Gorbel.

WORK STATION JIB CRANES

Versatile enough to perform a wide variety of local handling and positioning functions. Economical enough to be dedicated to individual work stations.

Gorbel Work Station Jib Cranes provide excellent coverage in circular areas not efficiently served by a main crane. Gorbel Work Station Jib Cranes increase productivity through easy boom rotation and trolley movement providing a rapid return on investment.

They also reduce injuries and improve safety, since only a low force is required to start and stop the boom rotation and hoist trolley. Ergonomic design makes for superior ease of movement, rotation and positioning.

Gorbel® Work Station Jib Cranes

- Weight Capacities from 100 to 2,000 lbs
- 200 Degree Rotation Column or Wall Mounted
- 360 Degree Rotation Floor Mounted
- Steel & Aluminum Enclosed Track Design
- Supports Tools, Air Balancers & Hoists

GranQuartz is an Authorized Distributor for Harrington Hoists. Custom quotes available upon request.

Manzelli® Evolution VAM 5PN/625 KTV Vacuum lifter

Patented inside-the-structure air system allows for some of the lifter's air lines to be concealed, reducing potential line snags, each vacuum plate has individual vacuum-loss indicators.

- Central vacuum plate rotates 90°, all other plates rotate 180°
- Power vertical/horizontal tilt from 0—90°
- Lifting capacity: 1,377 lbs. vertical/horizontal

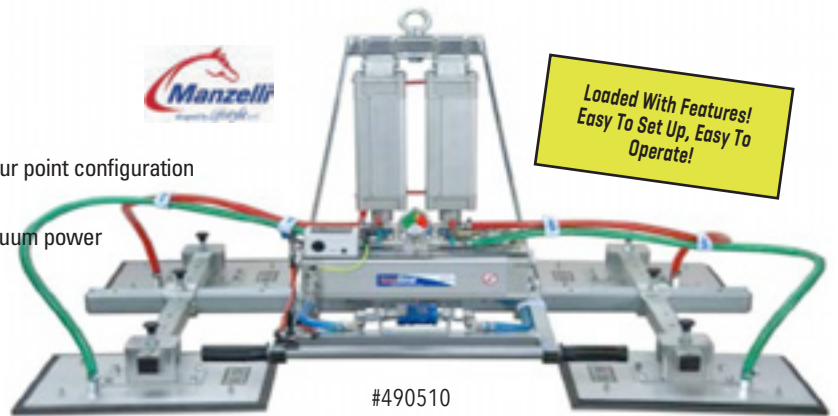

Stock No.	Model	Capacity	Price
490181	VAM 5PN/625	625 kg	\$12,075.00

Increase Your Shop's Efficiency While Adding Safety To Your Employees' Work Environment!

Manzelli® EXENTIAL Vacuum lifters

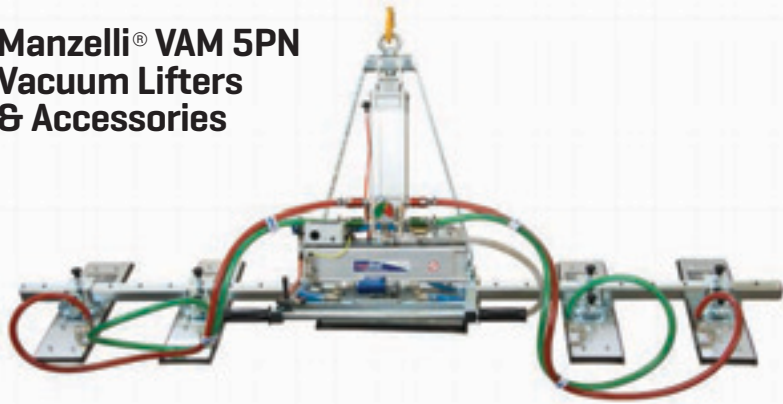

Manzelli's Exential economy vacuum lifters are engineered with the same precise Italian high quality specifications as all of the Manzelli line but have been redesigned for better affordability. Like all Manzelli lifters, the Exential line includes standard features such as audible and visual alarms that typically cost extra with other lifters. Manzelli Exential gives you the high quality you demand, at a lower price, with safety you can depend on.

LIFTING & MATERIAL TRANSPORT ACCESSORIES

Aardwolf® Lifters

Safety: Due to the unique slim profile and design of the lifter, the Aardwolf requires minimum slab movement to engage and secure the slab. Also, because the angle of engagement is generally below the over-balance angle, operator danger is minimized.

Security: The Aardwolf Lifter has a superior force-multiplying factor of approximately 2.5 to 1, and is designed with a rubber jaw coating to prevent chipping and scratching.

Efficiency: The clamping mechanism is on the front of the slab which allows easy access and positioning of slabs.

Abaco® Automatic Slab Lifters

Designed to lift and move stone slabs with rubber covered clamp plates to safely handle the material. Opening and closing mechanism is fully automatic. Each time you lift up and lift down, the installed automatic locking latch will lock and release the clamping mechanism. Suitable for both natural and engineered stone surfaces.

- Use with a crane (or with a forklift truck) to clamp, lift and transport stone slabs
- Includes specialized swivel shackle, allowing the lifter and the material to smoothly rotate 360°

Abaco® Porcelain Lifters

Specifically designed to lift and move materials which are flat, long, thin, delicate, and breakable such as porcelain, glass, ceramic and other surfaces. Clamping mechanism is fully automatic and the large surface contact area for the material is covered by rubber pads to prevent damage to materials when lifting.

- Two guide shafts lead the lifter into position
- 8 wheels- four lower wheels for easy maneuvering when not in use, four upper wheels provide pressure and act as a guide to center slab within the two clamps
- Made of strong, light weight aluminum

Achilli
EVALUATOR IN STONE TECHNOLOGYExclusively At
GranQuartz

Achilli® SC500 LC Slab Cart

Achilli's SC500 LC (Lever Controlled) Slab Cart is a hydraulic motorized slab trolley that has proven to be indispensable when moving and carrying slabs from storage. Additionally, operators are able to lift and position granite or marble slabs onto the machine table with this granite cart. The SC500 LC is equipped with the following standard and optional features:

- Lifting – Users control materials easily because the worktop is adjustable in height from 25.5" to 38"
- Handling – Fabricators can control hydraulics easily with the lever controls unit
- Telescopic Panel – An operator can use the telescopic panel to access lever controls so loading large slabs is easy
- Frame – Stable and sturdy steel frame, equipped with 4 pneumatic wheels (2 pivoting). Resulting in a loading capacity of 1102 lbs.
- Worktop – The 54" × 79" worktop is fitted with hard wearing plastic wheels so slab loading and off-loading is easier

Stock No.	Description	Price

NEW!

Achilli® SC800 LC Granite Carrier

Achilli's SC800 LC (Lever Controlled) Slab Cart is a hydraulic motorized slab trolley that has proven to be indispensable when moving and carrying slabs from storage. Additionally, operators are able to lift and position granite or marble slabs onto the machine table with this granite cart. The SC800 LC is equipped with the following standard and optional features:

- Lifting – Users control materials easily because the worktop is adjustable in height from 25.5" to 38"
- Handling – Fabricators can control hydraulics easily with the lever controls unit
- Telescopic Panel – An operator can use the telescopic panel to access lever controls so loading large slabs is easy
- Frame – Stable and sturdy steel frame, equipped with 4 pneumatic wheels (2 pivoting). Resulting in a loading capacity of 1102 lbs.
- Worktop – The 54" × 79" worktop is fitted with hard wearing plastic wheels so slab loading and off-loading is easier

The MOST VERSATILE RAMP EVER!

Rolls UP For EASY STORAGE!

Roll-A-Ramp® HD™

The new ROLL-A-RAMP HD portable transport ramp can be used to get equipment and materials up or down a flight of stairs, into or out of a vehicle or over obstacles. The ramp rolls up or can be folded for storage in small spaces where standard fixed ramps won't fit. Custom lengths are available and ramps can be shortened quickly if needed. Ramps are modular allowing additional sections to be added to extend the length.

LET US DO THE HEAVY LIFTING

Pro-Lift Automatic

- Compact. Stable. Solid.
- Wireless remote for ease of use
- 1,000 lb (450 kg) capacity; weighs only 74 lb

The Pro-Lift helps to **reduce the risk of injury** by doing the heavy lifting for you! That means you can send **less people to the install**. It enables you to **safely tilt countertops onto cabinets** with ease. The Pro-Lift easily fits into your installation trucks and vans and can be used to lift, lower and transport stone, heavy doors or just about any heavy panel you need to move more safely.

OMNI CUBED TRANSPORT EQUIPMENT

Pro-Cart AT1

The Pro-Cart AT1 is designed to overcome the challenges of moving stone over curbs, stairs, and other rough terrain such as gravel or lawns. The cart easily and safely transports large and cumbersome stone, reducing the physical burden on workers. Integrated clamps and high ground clearance allow popping wheelies or climbing stairs with stone attached. Equipped with 8" non-marking, flat-free tires that last longer and are more reliable than pneumatic tires. Strong aluminum tubing makes this cart lightweight and highly durable.

- Designed to easily clear and rest on stair treads
- Clamps onto stone to cross any terrain
- 750 lb capacity
- Weighs less than 50 lb
- Clamp opening 73mm (2.88")

Stock No.	Description	Price
350300	Pro-Cart AT1	\$775.00

Folding Kit
Sold Separately

Pro-Cart AT2

The Pro-Cart AT2 is designed to overcome the challenges of moving stone over curbs, stairs, and other rough terrain such as gravel or lawns. Equipped with all the same features as the Pro-Cart AT1 model, PLUS collapsible clamp uprights for easy removal and tilting of stone, a built-in Folding Kit that rotates caster rails beneath the support beam for easy storage, 10" flat-free tires, and an adjustable wheelbase for matching variable stair treads.

- 1,000 lb capacity
- Weighs less than 65 lb
- Clamp opening 73mm (2.88")
- Folds to under 13" wide

Stock No.	Description	Price
350302	Pro-Cart AT2 2014	1,195.00

Pro-Dolly™ HD1

The Pro-Dolly™ HD1 allows easier transport and installation of countertops. An aluminum frame makes this dolly extremely compact and lightweight. The dolly's low profile allows more clearance for tall pieces through doorways. This product is often used in pairs to handle extra large pieces (up to 1,500 lb). Integrated clamps hold countertops securely on the dolly, so the dolly can stay attached from fabrication shop to final placement. The HD1 features 8" non-marking, flat-free tires with excellent shock absorption, and a rubber-lined support rail to prevent damage to stone.

- 750 lb capacity
- Clamp opening 73mm (2.88")

Stock No.	Description	Price
350304	Pro-Dolly HD1	\$375.00

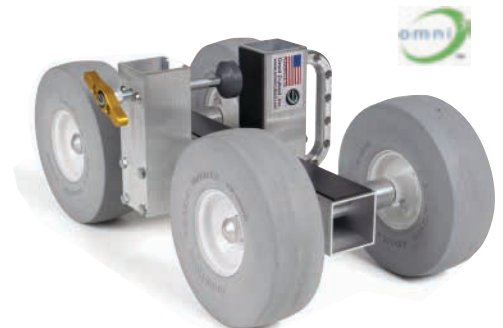

Pro-Dolly™ HD2

The Pro-Dolly™ HD2 weighs only 35 pounds, yet is strong enough to accommodate a half-ton load. The dolly's low profile allows more clearance for tall pieces through doorways. This product is often used in pairs to handle extra large pieces (up to 2,000 lb). Integrated clamps hold countertops securely on the dolly, so the dolly can stay attached from fabrication shop to final placement. The HD2 features 10" non-marking, flat-free tires with excellent shock absorption, and a rubber-lined support rail to prevent damage to stone. The HD2 model has an oversized clamp opening for transporting countertops up to 5" thick, such as tops with miter laminated edges.

- 1,000 lb capacity
- Clamp opening 130 mm (5.13")

#350306

Omni Cubed Pro-Lift Automatic Heavy Lifting Countertop Installation Cart

The Pro-Lift Automatic provides a safer means of stone transportation and installation. It has been designed to reduce physical strain and risk of injury, while increasing productivity and efficiency. The cart accommodates any size countertop up to 1,000 lb. Use it to lower, lift, and roll extremely large pieces around the shop and install location, as well as assist with final countertop placement. The power lift feature elevates stone up to 45" from the ground, and enables controlled tilting for easier, less hazardous installation. The cart features a strong aluminum frame, yet only weighs 74 lb. The Pro-Lift is powered by a long-lasting rechargeable tool battery, controlled via wireless remote, and has an integrated level, stone clamp, and kickbrake for added safety. The cart also features 10" shock-absorbing, non-marking, flat-free tires

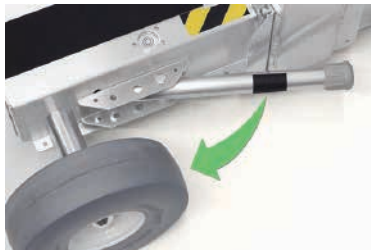

- Reduce physical strain and risk of injury
- Accomplish more with less people
- Unload slabs easier, safer, and faster than traditional methods
- Enables controlled tilt for easier countertop installation
- Wireless remote allows workers to position themselves in safer areas around the stone
- Commonly used with Aqua-Jaw™ Carry Vise™ for optimal material control
- Engineered for optimum stability and maneuverability
- Lift stone up to 45" (from ground to support rail)
- Clamp opening: 4.5" (115 mm)
- Powered by 28V rechargeable lithium-ion battery
- 1,000 lb capacity; weighs only 74 lb
- 10" non-marking, flat-free, shock absorbing tires
- Integrated remote storage cage, level, and kickbrake

Made in the USA from US & imported parts.

Stock No.	Description	Price
350306	Pro-Lift Automatic.....	\$4,995.00

Powered by a 28 volt lithium-ion rechargeable battery pack

Integrated kickbrake for optimal support and stability

Wireless remote allows workers to stand in safe zones

Enables the unloading of large pieces out of trucks (and off the A-frame) to be much safer, faster, and easier

OMNI CUBED MATERIAL HANDLING

Optional Handle Kit (add 2 handles to each set)

Aqua-Jaw™ Carry Vise™ PATENT US640522

The Aqua-Jaw™ Carry Vise™ promotes safer, more ergonomic lifting to reduce strain and injury. This all-weather carry clamp is designed to grip wet stone, and can be used to carry stone up stairs. Aqua-Jaws are the highest capacity carry clamps available, and open wide for thick edges.

- 800 lb capacity per pair
- Clamping range 4 mm - 108 mm (0.15" - 4.25")
- Optional Handle Kit allows four people to share the load

Stock No.	Description	Price
112345	Aqua-Jaw Carry Vise (set).....	\$595.00
112346	Aqua-Jaw Handle Kit (4 extra handles)	60.00

Mega-Jaw™ Carry Clamp

The Mega-Jaw™ is a quick and easy, gravity-assisted carry clamp. The clamps distribute weight to both arms, reducing strain and enabling safer, more ergonomic carrying of stone. The clamps feature strong, lightweight aluminum arms and durable, non-marking rubber gripping pads. The gravity-assist action makes the clamps grip tighter as more weight is lifted, for a secure hold on thick stone and concrete countertops.

- 500 lb capacity per pair
- Clamping range 6 mm - 61 mm (0.24" - 2.4")
- Precision-machined aluminum arms have adjustable tension

Stock No.	Description	Price
112347	Mega-Jaw Carry Clamp (set).....	\$295.00

No-Spin Edger™

The patented No-Spin Edger is an inexpensive solution for eliminating vertical surface damage during polishing and refinishing. This rigid aluminum backer replaces traditional backer pads, and features a free-floating top disk with a built-in bumper that stops spinning while the polishing pad continues to work beneath it. This innovative system acts as a protective roller-guide against perpendicular surfaces, and eliminates costly damage caused by the edge of spinning pads. The No-Spin Edger allows fast, precise, and consistent cut patterns along edges and in corners, while greatly reducing time, labor, and worker fatigue.

- Works great for stone and concrete surfaces
- Disc acts as built-in guide to allow fast and precise cut patterns
- Greatly reduces worker fatigue on large refinishing jobs

Stock No.	Description	Price
413917	4" No-Spin Edger	\$150.00
513917	5" No-Spin Edger	160.00
713917	7" No-Spin Edger	195.00

Low-Profile Bumper Accessory

The Low-Profile Bumper accessory for the No-Spin Edger protects faucet fixtures and other lower profile vertical surfaces from the edge of spinning abrasive pads used for polishing or refinishing. Durable plastic ring snaps onto the No-Spin Edger, lowering the contact area of the free-floating disk.

- Clean, consistent polish line against low-profile edges
- Available for 4" or 5" Diameter No-Spin Edger

Stock No.	Description	Price

Made in the USA from US & imported parts.

Miter-It™ Clamps

PATENT US9393765

The Miter-It™ clamp is an easy-to-use jig that allows finished-side-up miter laminations. Not flipping the material offers numerous benefits: increased safety for workers, reduced risk of damage to the material, and keeping the seam in view during lamination. The Miter-It securely holds edges at 90°, eliminating the need for a helper to position the material. The clamp's weight and non-marking, non-skid contact surface hold the product and miter piece in place.

- More efficient than taping methods alone
- Highly durable steel construction with powder-coat finish
- Accommodates laminated edges from 1.5" - 6"

Stock No.	Description	Qty	Price
340314	Miter-It Original	1	\$195.00
350307	Miter-It Corner	1	395.00

Miter-It™ Kit

Easy to use clamping system uses minimal shop (compressed) air to power the 1/2 CFM venturi vacuum generator for secure clamping.

- Securely holds edges
- No flipping for gluing

Stock No.	Description	Price
350320	Miter-It Auto, Electric, 2-Clamp Kit w/Cups+Case ...	\$1,095.00
350321	Miter-It Auto, Pneumatic, 2-Clamp Kit w/Cups	895.00

350317	Venturi Vacuum Generator	195.00

MITERS MADE EASY

Miter-It™ Auto Electric & Pneumatic

- Easy. Fast. Efficient.
- Only takes one person to set perfect seams
- Miter finished side up—keeps the seam in view!

Why waste labor and time when we have made it so simple for you to set seams...all while **saving your back**. Miter finished side up—no more having to “flip” just to glue, this product is much more **efficient and accurate** than taping methods alone. Fine-tune adjustments for ultimate seam control.

Sink Hole Saver™ Slider

Adjustable-length, surface mounted reinforcement device that offers exceptional versatility and convenience. Same tool as the Sink Hole Saver Manual, with the added advantage of a quickly customizable length. Includes two 4' stiffening rails combined with a pre-mounted Extension Bracket Kit, and 4 non-marking vacuum cups that can be repositioned around cutouts, or spaced out to completely support fragile material. Fully extends to 90" and collapses down to 51" for smaller pieces and convenient storage.

- Versatile, convenient, customizable
- Quickly extend or collapse to completely support fragile materials
- Non-marking vacuum cups can be easily repositioned along material or around cutouts
- Extension range: 51" - 90" (1.3 m - 2.28 m)

Stock No.	Description	Price
350050	Sink Hole Saver Slider	\$450.00

Edge Seamer™

Helps take the twist out of sink rails and cutouts, and dials-in flawless seams along material edges. Works great along any edge to ensure a consistent, even joint. Clamps have a wide range to accommodate many standard edges with rubber bumpers to protect finished details. Integrated rail pads allow enough flexibility for fine adjustments on each side of seam, to compensate for the slightest unevenness. Fast, easy to use with greater precision and reliability than shims only.

- Perfect solution for leveling seams along cutouts
- Fast, easy, and more reliable than shims alone
- Integrated rail pads for fine-tuning
- Rubber bumpers protect finished edges
- Clamping range: 0.55" - 1.97" (14 mm - 50 mm)

Stock No.	Description	Price
350049	Edge Seamer.....	\$150.00

Stealth Grip 8" Vacuum Cups

Made with non-marking gray rubber. Set includes 2 gray non-marking 8" manual pump suction cups and a handy storage bucket. The bucket is an excellent way to protect the cups when not in use, or store and carry other items needed on the jobsite.

- Versatile, convenient, customizable
- Quickly extend or collapse to completely support fragile materials
- Non-marking vacuum cups can be easily repositioned along material or around cutouts
- Extension range: 51" - 90" (1.3 m - 2.28 m)

NEW!

Nano Auto Stealth Seamer™

Joins and levels countertops to consistently create high-quality, even seams with more control and less effort than traditional methods. The product's proprietary non-marking cups feature our FTS™ (Flexible Triple Seal) technology that locks-in vacuum and provides optimum hold—even on textured and leathered materials. The Nano's wide-open design and high-clearance driveshaft keep seams extremely accessible for epoxy application and removal—no need to waste time scraping the seam after glue has set.

- 5" cups allow seaming smaller pieces and tighter spaces
- More control and less effort than shims and screws
- Proprietary, non-marking vacuum cups won't stain surfaces
- FTS™ vacuum cup technology for optimum hold on textured and leathered materials
- Easily access seams for epoxy application and removal
- Non-spinning leveling feet won't scratch surfaces
- Smooth-turning knurled roller opens and closes seams with ease
- Powerful, compact pump maintains max pressure for entire system
- Runs on AC power or AA batteries

350311	Stealth Seamer Nano Manual (single).....	\$225.00

Stealth Seamer 90° Manual

For creating high-quality perpendicular seams such as mitered aprons, butt-joints, and compound corners without the hassle of straps or bar-clamps. Can also be inverted for inside corners, with proprietary non-marking cups featuring FTS™ (Flexible Triple Seal) technology that locks-in vacuum and provides optimum hold—even on textured and leathered materials. Not recommended for porous surfaces or heavy waterfall pieces.

- Consistently create high-quality, expertly aligned perpendicular seams
- Ideal for mitered aprons, butt-joints, compound corners & inside corners
- Proprietary, non-marking vacuum cups won't stain surfaces
- FTS™ vacuum cup technology for optimum hold on textured and leathered materials
- Knurled rollers and fine-tune levelers align and dial-in precise angles
- Counter-pressure leveler overcomes lower outswing of vertical pieces
- Easy to read indicators allow you to monitor vacuum pressure at a glance
- Cups can be re-pumped without loss of remaining pressure

Pro Stealth Seamers

Great for completing a "seamless" installation, the Pro Stealth Seamer joins, levels, and flattens warped stone for producing virtually invisible seams. It's accessible design allows you to view the seam, make adjustments, apply epoxy, and scrape the seam while it's in use, speeding up the process.

- Gray, non-marking vacuum cups won't stain lighter colored materials
- Joins, levels, and flattens warped stone
- Manual thumb pump of our own patent-pending design
- Improved vacuum-release valve is very resistant to epoxy and solvents

Omni Cubed® Rigid Cross-Brace Kit For All Sink-Hole Savers

The Rigid Cross-Brace kit for all Sink Hole Savers provides a solution for large-format porcelain tile transport and installation. The Rigid Cross-Brace Kit is an accessory for vacuum Sink Hole Savers that includes two 4' strengthening bars and four clamps, so your customers can put together custom frameworks that can be configured for a variety of applications. An optional Horizontal Lifting Handle Kit is also available, which provides a gripping point beyond the ends of the bars.

- Minimizes twisting and flexing of material
- Sturdier than using unconnected bars or rails
- Works great for LFT (large format tiles)
- Create custom configurations
- Integrated "resting" feet won't scratch surfaces when material is inverted

Gorilla Grip Seam Setter 2.1

The Gorilla Grip system provides fast and powerful clamping of stone surfaces using an electric vacuum pump. Seams can be rapidly opened or closed by simply moving the roller nut with the palm of your hand. The vacuum pump ensures consistent and powerful clamping of the pods to the work surface. Works well with polished or porous stone.

- Powerful Clamping Mechanism
- Effectively Aligns Heavy Stone Tops
- Electric Vacuum Pump Holds Tight
- Easy To Use

Adjustable Brace Setter

Features the same high-performance router housing that connects to a 5/8 x 11 angle grinder to quickly cut a precise 2 9/16" wide groove for your brace, with an added bonus.

Adjustable- allows you to adjust the cutting depth from 0 to 3/8. By turning the blue top of the Brace Setter Adjustable, you can move the blades up or down to make a precise groove at any depth required. Has more cutting power with 3 cutting blades instead of 2, for a total of 54 long-lasting tungsten carbide teeth.

Innovation

Cooktop Bags

This simple innovation helps you virtually eliminate the mess of stone debris and dust during cooktop installations while protecting the insides of the cabinets, hinges and drawer slides. Water and stone debris that would otherwise drop into the cabinet during installation is safely secured inside the cooktop bag! Installers can save 15-20 minutes PER JOB using this product.

- Made from 1.5 Mil clear poly
- Accommodates all cooktop cutouts & cabinets between 30" - 36" L x 24" W
- Dispenses from roll of 25
- Easy to use, wet or dry
- Virtually eliminates mess of dust and debris
- Helps prevent damage to cabinetry and drawer slides during installation

TUSCAN® Levelling System

Tuscan Leveling is a unique 2-piece system that virtually eliminates lippage during tile installation. Choose the Standard Strap for tiles of uniform thickness (gauged tile), or the Wing Strap for tiles with varying thickness.

- Passes standard industrial (TCNA Robinson) compression test
- Virtually lippage free, flat surface drastically reduces the need for grinding and polishing
- Prevents tiles from moving while curing
- Choose either Standard (gauged tile) or Wing style (varying thickness tile)
- Reduces installer fatigue/stress.
- Re-usable caps.

Mastercraft MCL17E Quarry

Simple "select-a-weight" (100-195 lb.) range allows you to balance energy needs less than 15 amps, and at 145 rpm, with enhanced torque. The triple planetary gear box (11:1) and 1-1/2 horsepower motor accommodate a variety of drive pads to handle diamond discs (5-point contact) powdered and liquid chemicals, Tynex or steel brushes for concrete, and various other brushes for stripping, scrubbing, and polishing. It even has self-contained or continuous center-feed liquid source alternatives (optional).

Metabo® ASR35 HEPA Wet/Dry Vacuum

The METABO ASR35 ACP Vacuum meets or exceeds all regulatory standards concerning HEPA vacuums and provides the highest level of job-site dust containment. The ASR35 ACP is made in Germany. Use for extraction from the power tool in continuous mode, both on construction sites and in the workshop, this compact vacuum cleaner is great for removal of liquids and dry solids. Utilizes AutoCleanPlus to save costs and time thanks to automatic MPulse filter cleaning allowing for continuous use. If the vacuum senses a pressure difference from one side of the filters to the other, the filters are vibrated immediately, clearing the filters without interrupting suction.

- Especially suited for extracting concrete and rock dust
- Suction power control for adapted suction performance
- Power socket- vacuum starts automatically when a tool plugged into the tool outlet is turned on
- Twin polyester filter cassettes with large filter area for constantly high suction capacity

Gelmaxx Eco-Quick Gel

GelMaxx Eco-Quick Ge solidifier absorbs slurry solids into a safe material that can be disposed of immediately. Meets the EPA Method 9095B Paint Filter Test and EPA regulations for proper disposal methods. 20 grams per gallon of treated material creates a gel-like substance within minutes that is safe to dispose of in a standard waste container. Can reduce the liability and cost for slurry water disposal.

Superior

Superior® V-Max Adhesives

V-MAX is a 100% vinyl-ester stone adhesive made from specially formulated high quality resins. V-Max is available in 3 different viscosities: V-Max SV-1 is the consistency of syrup and is pourable, and V-Max SV-9 is a thick paste.

All V-Max adhesives are formulated for natural and engineered stone surfaces.

- V-Max SV-1: Laminating, rodding, crack repair
- V-Max SV-9: Seaming, laminating, miter joints, crack repair, chip repair

All adhesives require proper storage for maximum shelf life and best performance. **V-Max vinyl-ester** adhesives are more sensitive to high temperatures than traditional polyesters. Manufacturer's recommended storage temp: **NO HIGHER THAN 75° F.**

Superior Pearl

A very light/white pearlescent color knife grade for seaming with "invisible" joints on lighter colored stones including white marble. Perfect for indoor applications, Pearl has a 3-5 minute working time with full cure in less than 20 minutes. Available in 3 knife grade consistencies:

- **FULL Knife Grade** is a more "typical" knife grade consistency
- **EHC** is thicker with less shear "paste" for high quality mitered edges.
- **Preferred** has a consistency similar to Superior Poly-Epoxy

Akemi® Akepox

Epoxy two-component adhesives are recommended for exterior applications and especially for granite, or when high bonded strength is desired. Akepox products have very low shrinkage during processing and can be tinted for color matching and polished to match the finish of the stone. Exact amount of hardener to mastic must be measured by weight. Thorough mixing of hardener is critical. Available in both Flowing and Knife Grade.

- Interior or exterior use
- Strong, flexible cured bond

Touchstone T-2000 Epoxy Setting Adhesive

This two component, water cleanable, 100% solid epoxy adhesive compound can be used on most structurally sound, dimensionally stable, dry surfaces for setting marble, ceramic, heavy flooring tile or pavers.

- 2 hour set time at 70 degrees F
- Sold in 1 gallon units
- Exceeds ANSI A.118.3

Stock Number	Price
900415.....	\$69.95

Tenax Multibond Acrylic Adhesive

Multibond is a styrene free acrylic glue for gluing and laminating marble, granite, engineered stone and ceramic surfaces. Multibond is packaged in special cartridges 10:1 bi-axial quantity 250 ml. The glue and the hardener are pre-dosed in the cartridge, once inserted in a proper gun, with special mixer fixed on the top this allows the correct extrusion and mixing of the product which is ready to be used for gluing. The Multibond is characterized to have an excellent adhesion in short time, so you can cut and polish the assembled parts in a short time, 30 min. The hardened product is flat, shining and very polishable.

- Wide range of colors
- Very fast curing time
- Styrene free
- For indoor use

Tenax Crystal Transparent Knife Grade

High quality polyester mastic used to vertically or horizontally repair, rebuild, bond, and fill. Crystal is very smooth in consistency, and will cure shiny, is very polishable and colors easily to match granite and other stones. It is perfectly suited for any application where the adhesive or seam/joint must be hidden.

Stock No.	Unit	Price
691155	1 Liter	\$28.95

Tenax Crystal Flowing Water Clear Polyester

Crystal flowing is a high quality polyester mastic used to horizontally repair, rebuild, bond, and fill. Crystal is free flowing and will cure shiny, is very polishable and colors easily to match granite and other stones. Not suitable for temperatures below 32°.

- Cures fast, extremely strong bond
- UV resistant
- Recommended for interior use

Stock No.	Unit	Price
923231	1 Liter	\$28.95

ProSpec B-150 Epoxy Tile/Countertop Adhesive

2-part tile setting epoxy, consisting of a resin and a hardener. One of our superior ceramic tile adhesives or pavers. ProSpec B-150 is a 100% solid, acid and alkali resistant tile setting epoxy.

- Set most types of ceramic tile or stone
- High bond strength
- 100% solid, acid & alkali resistant
- Exceeds ANSI A118.3

Stock Number	Desc.	Price
693577	Gallon.....	\$69.95

Latapoxy 310 Stone Adhesive

LATAPOXY 310 Stone adhesive is a two component building code approved, high strength construction epoxy adhesive for spot bonding large format tile and stone on vertical surfaces, for either interior or exterior applications. Available in a standard 45 minute set version or a rapid 5 minute version.

Nitro is shop proven to provide excellent adhesion to stone, quartz, porcelain, marble, polyesters, acrylics and many other hard surfaces. The new improved semi-dripless viscosity makes Nitro the perfect thickness for creating tighter joints with less product waste. Nitro's broad range of colors allows matching most other adhesives on the market easy using fewer cartridges, and comprehensive color charts are available online at granquartz.com for quick reference. All Nitro One Shot adhesives are GreenGuard Certified (qualifies for LEED projects), with increased shelf life and stronger bonding of all stone and quartz surfaces.

CLEANING PRODUCTS & CHEMICALS

GranQuartz 113M 3-in-1 Cleaner, Polisher and Protector Spray

Perfect for everyday use, GranQuartz 113M spray is formulated to keep natural and engineered stone surfaces including granite, marble, quartz, limestone, travertine, Corian®, Silestone®, ceramic and porcelain sparkling clean and looking brand new. 113M conditions natural stone surfaces to restore, maintain and enhance their reflective luster and beautiful rich colors. Regular use of 113M makes surfaces easier to clean and leaves a water-resistant protective coating to safeguard against spills, hard water dark spots and etching.

- Non-toxic, biodegradable
- Non-acidic neutral and gentle non-abrasive formula
- Fresh lemony scent
- Leaves a pleasant velvety surface touch
- No buildup, streaks, residues or greasy film
- Resists fingerprints and smudges, prolonging your stone's reflective properties
- Also cleans, polishes and preserves the high luster of stainless steel, aluminum, brass or chrome appliances, faucets or fixtures

Miter-It™ Clamps

The Miter-It™ clamp is an easy-to-use jig that allows finished-side-up miter laminations. Not flipping the material offers numerous benefits: increased safety for workers, reduced risk of damage to the material, and keeping the seam in view during lamination. The Miter-It securely holds edges at 90°, eliminating the need for a helper to position the material. The clamp's weight and non-marking, non-skid contact surface hold the product and miter piece in place.

- More efficient than taping methods alone
- Highly durable steel construction with powder-coat finish
- Accommodates laminated edges from 1.5" - 6"

Stock No.	Description	Qty	Price

Make nearly invisible seam edges, FAST!

(Electric Seam Phantom tool package includes toolbox, pneumatic version does not)

NSI Solutions Seam Phantom

The Seam Phantom® is an innovative system for producing nearly perfect seams in all types of stone and quartz. The system utilizes a diamond cup wheel followed by up to three (3) diamond abrasive and a precise depth adjustment to eliminate chips and produce a clean sharp edge. When the counter is assembled the result is a nearly invisible seam. The Electric Seam Phantom tool package includes a durable toolbox, the pneumatic version does not.

- Rigid design holds grinder at precise angle
- Use with a Glide Guide straight edge
- Produce precisely dressed, chip free edges
- Used to correct out of square or rough saw cuts on the jobsite

Make consistently awesome cutouts, FAST!

NSI Solutions Sink Bull™

The Sink Bull™ is a machine specifically designed to quickly grind perfect, repeatable, cutouts for under-mount sinks. The Sink Bull™ rides on a simple, shop made template of plywood or plastic. Extremely stable in use, it grinds quickly and accurately when paired with our 3" Rapid Z-Cut™ bit.

- Create perfect, repeatable, sink cutouts using inexpensive shop made templates of plywood or plastic
- Powered by heavy duty, 15 amp Makita Grinder (model GA7021), sold separately
- Start with 3" Rapid Z-Cut bit for fast material removal (top bearing version)
- Finish with vacuum brazed drum wheel (top bearing required) to leave an easy to polish edge (3" Coarse and Fine included)
- Simple external water feed

NSI Solutions Rapid Z-Cut™

Rapid Z-Cut™ was designed for shaping sink cutouts but is also great for other fabrication tasks. The combination of a corrosion resistant stainless steel arbor with center water feed and stacked 3" diamond blades allows for extremely fast stock removal, especially when used on The Sink Bull.

- Blades can be rearranged to correct "apple coring"
- Available with or without top bearing
- Replaceable 3" diamond blades
- 2-Stage template follower- the outer ring can be removed after the blades wear down (bearing version only)
- 5/8"-11 thread

**Skilsaw® SPT77W-227 1/4" Worm Drive Saw**

The Skilsaw Worm Drive has a Dual-Field motor that is designed especially for saws. It increases cooling and extends the life of the saw. A 51° bevel allows user to make a wide variety of cuts.

- Powerful 15 Amp motor
- Push button spindle lock for easy blade changes
- Cut-ready depth of cut system
- Anti-snap lower guard reduces snags

600165.....\$247.16

Makita**5.5" Makita® 5005B Circular Saw**

Makita's 5005BA 5-1/2" saw is a compact and versatile saw engineered for a range of applications.

- Powerful 8.0 amp motor
- Lock-Off button prevents accidental starts
- Blade is located on left side for better cut line visibility

116376.....\$298.00

Makita

WET

5" Makita® 4101RH Masonry Saw

The Makita 4101RH 5-in wet-cutting masonry saw is ideal for wet cutting of tile, masonry, concrete, and more.

- Wet cutting saw, 7.9 AMP
- Cover revents water from entering motor housing
- Includes 15 ft. of tubing, water pressure regulator and valve and GFCI

115951.....\$379.99

Makita**7.25" Makita® 5477NB**

- Powerful 15 AMP motor
- High quality, heat treated hypoid gears are engineered for long lasting performance
- 0° - 51.5° bevel capacity
- Large cutting capacity (2-3/8" at 90°, 1-3/4" at 45° and 1-9/16" at 50°)

900125.....\$172.95

119741	Alpha PSC-600 Saw	\$485.00

ALPHA

Alpha® ESC-125 Electric Wet/Dry Saw

For use on granite, quartz surfaces, marble, limestone, concrete and sintered slabs. Use for wet or dry cutting. Water-feed supply eliminates creation of harmful dust particles in the air.

- Precision Cuts Everytime.
- Powerful 1200W Motor
- Base plate allows guides to be used in multiple ways
- New clamping system ensures cutting stability
- Includes self-adhesive felt strips to protect work surface
- Built-In GFCI
- For use with curved or straight cutting blades

Stock No.	Description	Price
900674	Alpha ESC-125 Saw	\$258.25

PEARL

Pearl® VX5WV 5" Wet/Dry Saw

Pearl's VX5WV circular saw is for use on all tile, hard porcelain, natural stone and masonry. All-aluminum single piece blade guard accommodates up to a 5" diamond blade and it accepts contour cutting blades for fast, safe radius cutting. Includes a vacuum port compatible with 1-1/2" hoses, trigger lock and inline GFCI.

- Side handle for additional support
- Powerful 11 amp motor
- Over 4cm depth of cut with 5" blade
- Limited one-year warranty

Stock No.	Description	Price
679977	Pearl VX5WV Wet/Dry Saw	\$289.00

Eibenstock® 5" Wet/Dry Saw

High performance wet/dry saw designed and manufactured in Germany.

- Accepts curved cutting blades for fast, safe radius cutting
- Roller guide smoothly guides saw and protects surface
- Adjustable cutting depth up to 1-3/8"
- Built-in GFCI
- Made in Germany

Pearl® VX 10RS 10" Rail Saw

The Pearl VX 10RS Rail Saw is designed for versatility and features folding legs that tuck under the saw when ready to transport. The cutting table has holes that divert the water and waste material away from work surface and into the slurry pan, away from the floor.

- Powerful 1-1/2 HP
- Position lock cutting head
- Rubber matted cutting table
- Sturdy wheels for easy transport
- Removable extension table adds extra workspace
- Splash guard reduces overspray
- Blade capacity of 10" enhances cutting capacity

Achilli® ANR Series Portable Stone Saws

Achilli's ANR series stone saws feature high quality construction and are made in Italy. ANR series saws are Achilli's mid-level bridge saws with powerful 220 V, single phase, 3 HP motors that are designed for cutting all stone surfaces. The onboard water tank reservoir includes a recycling pump to feed water up through the blade housing and channels it to the blade from both sides, keeping it cool during use. The ANR 200 makes 78" useful cuts, while the ANR 130 makes 51" cuts. Height adjustment of the cutting head is controlled by a manual hand crank when cutting materials of various thicknesses. A great saw for cutting granite on site with multi-functions to perform horizontal cutting and slotting.

- Galvanized steel rail work table with one extension table
- Transport handle with adjustable squaring bar
- Double rhomboid bridge design for high resistance & accuracy
- Water tray & recycling pump are self-contained for total portability
- Folding legs for ease of transportation
- Accepts 10", 12" or 14" blades
- 3,400 RPM, 3 HP

Achilli® TAG Series Portable Stone Saws

TAG series saws are Achille's entry level, Italian-made bridge saws with a powerful 220 Volt, single phase, 3 HP motor designed for cutting all stone surfaces. The TAG's onboard water tank reservoir includes a recycling pump to feed water up through the blade housing which is then channeled to the blade from both sides, keeping it cool during use. Height adjustment of the cutting head is controlled by a manual hand crank. Plunge cuts and step cutting operations are easily achieved using the height adjustment feature as well and the entire beam tilts for precision miter cutting. The TAG series are equipped with a soft on/off button next to the blade.

- Galvanized steel rail work table
- Transport handle with adjustable squaring bar
- Double rhomboid bridge design for high resistance & accuracy
- Water tray & recycling pump are self-contained for total portability
- Folding legs for ease of transportation
- 3,400 RPM, 3 HP

Achilli® ATS Series Tile Jobsite Saw

Achilli's The Achilli ATS wet tile saw is an outstanding job site saw for cutting stone, porcelain, ceramic, terracotta, concrete. ATS Series tile and stone saws are perfect for 3/8" to 1/2" material. The ATS wet tile saws are designed and built for years of service under the harshest of shop conditions. The Achilli ATS wet tile saw is made in Italy with premium quality materials.

- ATS 80: 31" (800mm) length of cut
- Manual head feed by hand.
- Tilting bridge for 45° cutting.
- Motor: single-phase, 110v, 3400 rpm - 1.5 hp
- Accepts an 8" x 1" (203mm 25mm) blade
- Water tank with built-in recycling pump.
- Manual depth adjustment by toggle-lever mechanism.
- Legs can be folded to facilitate transportation.
- Side extension table (optional) can be mounted to both sides of the machine.

Achilli® AMS Series Single-Bridge Jobsite Saws

Achilli's AMS series portable bench stone saws are compact and sturdy stone fabrication machines designed with a sliding cutting head. Stone cutters and installers can use this machine as a wet stone saw for cutting granite, marble, engineered stone and tile surfaces. AMS series jobsite bridge saws provide a high level of accuracy when cutting stone and other materials and feature:

- Depth Adjustment: manually adjustable cutting depth by means of the "plunge" cutting mechanism
- Worktable: galvanized steel worktable with rail width of 21" (AMS 100) or 26" (AMS 130)
- Tilting Bridge: make cuts from 90° to 45° using the bridge tilt feature
- Built in recycling pump in the water tank for cooler cutting
- Portability: folding legs for ease of transportation
- Blade diameter: 10" - 14"
- Optional extension table available
- 3,400 RPM, 3 HP

Achilli® AFR 300 A-ZM Fixed Bridge Saws with Laser

This machine is great for use in small and large fabrication shops because of its configuration. The AFR A300 A-ZM fixed bridge saw is equipped with a number of features and offers optional features as well. The standard and optional features include:

- Motorized head feed with variable speed in both directions for total operator control
- Work table made of powder-coated stainless steel rails to withstand the harshest shop conditions
- Two extension Tables: 31.5" X 23" and a side stop, allowing the option of adding more tables
- Motorized cutting depth adjustment provided by geared motor
- 90° to 45° Bridge tilt allows manual bridge tilt for making precise cuts
- 3,400 RPM, 7 HP
- Accepts 10" - 14" diameter blades
- Makes 10' useful cuts
- Includes Laser

Achilli® AFR 300C Fixed Manual Bridge Saw

The AFR 300C fixed bridge manual saw is a compact and sturdy saw with a fixed bridge. The bridge tilt and the water tank with built-in recycling pump make it suitable for workshops. It is equipped with 2 extension tables to increase stability and facilitate the movement of the work pieces. The standard and optional features include:

- Manual feed head with variable speed in both directions so the operator has control
- Worktable is made of galvanized steel rails with powder finish for durability in all conditions
- Saw is equipped with No. 2 side extension tables 31.5" x 23" and side stop, therefore it is expandable.
- Cutting Depth Adjustment - Another manual feature is the cutting depth adjustment
- Manual bridge tilts 90° to 45° for precise cutting
- Useful cut length: 10'
- 3,400 RPM, 4 HP

Achilli® AFR 350A Single-Bridge Jobsite Saws

The AFR 350A is Achilli's high end bridge saw designed for use in small and large fabrication shops. Additionally, The AFR 350A fixed bridge saw is equipped with numerous features and also offers optional add-on capabilities as well. Standard features include:

- Motorized head feed with variable speed in both directions for total operator control
- Work table made of galvanized steel rails with powder finish to withstand the harshest shop conditions
- Two extension Tables: 31.5" X 23" and a side stop, allowing the option of adding more tables
- Motorized cutting depth adjustment provided by geared motor
- 90° to 45° Bridge tilt allows manual bridge tilt for making precise cuts
- 3,400 RPM, 7 HP
- Accepts 10" - 14" diameter blades
- Makes 11' 4" useful cuts

Achilli® CMS Wet Saw

This water circulating wet 14" sliding wet saw has a powerful 3 HP 220 V 13.5 amp motor delivering 3400 RPM for the most powerful output with durability for cutting backsplash or aprons. The CMS is a perfect fit for all shops that own a inline splash machine. Use the CMS instead of a bridge to increase production for countertops and save labor by having a designated splash cutting saw.

- Galvanized steel frame structure is extremely durable
- Tools: includes necessary blade and bolt wrenches
- Built in water tank with recycling pump cools the blade
- Water tank has a built in recycling pump providing the blade with a continuous supply of water
- Optional 47" side extensions which may be "chained" together for a maximum length of 126" from end to end

Achilli® TFM Fixed Bridge Thick Stone Saw

This fixed bridge, thick stone saw is equipped with compressed, rectified, and chromed "active beam" for accuracy. Worktable extensions widen the workbench easing the movement of slabs in small spaces and a particular device facilitates the execution of parallel cuts. The TFM has a 10Hp, 3,400 RPM motor with a useful cutting length of 10' 2" and is configurable. Standard and optional features:

- Frame - Sandblasted and ceramic coated steel frame.
- Head Motion - Motorized head feed with variable speed in both directions so the operator has control.
- Cutting Depth Adjustment - Motorized cutting depth adjustment along Z axis by geared motor.
- Worktable - The worktable is made of galvanized steel rails, hence it is durable.
- Head Tilt - Due to the manual head tilt for cutting from 90° to 45° fabricators are able to make precise cuts.
- Extensions & Side Top - Equipped with no. 6 worktable extensions and side stop
- Parallel cut device available for the execution of parallel cuts

Achilli® TFR-A Bridge Saw

The Achilli TFR A Granite and Stone Bridge Saw is the perfect solution for shops fabricating Granite, Quartz, Quartzite and other hard surfaces and high production shops that need extra cutting and fabrication speed. The TFR-A's bridge tilts at a 45° for full length angle cuts. The head of the saw doesn't tilt but the entire beam system will tilt. The advantage to this is there are no bearings or moving parts on the bridge of the saw or the motor that can loosen to negatively impact exact miter cutting. The entire bridge will easily rotate using two knobs that you loosen to make adjustments to the angle. Standard features:

- Manual feed head with variable speed in both directions so the operator has control
- Motor: 7 Hp and 3,400 RPM
- Worktable is made of galvanized steel rails with powder finish for durability in all conditions
- Cutting Depth Adjustment – Another manual feature is the cutting depth adjustment
- Manual bridge tilts 90° to 45° for precise cutting
- Useful cut length: 10' 8"
- Equipped with no. 6 worktable extensions and side stop

Achilli® TSA Portable Rail Saw

The TSA Rail Saw is Achilli's cost effective way to cut large slabs. The rails are placed directly on the stone slab for cutting. Standard and optional features:

- Head travels on 6 bearings 1 1/4" in diameter
- Frame made of steel, painted with epoxy-powder finish to withstand the harshest shop conditions
- Two extension Tables: 31.5" X 23" and a side stop, allowing the option of adding more tables
- Manual cutting depth adjustment by hand wheel
- Rails available in multiple sizes from 4' - 13' and may be configured with adjustable feet for additional stability
- Easy, one-handed water disconnect

SPECIALTY POWER TOOLS

Flute Grinding & Polishing System

Precisely fabricate fluting for drain boards, fireplace surrounds and other decorative marble and granite pieces without improvisation! Professionally grind and polish flutes without the tedious handwork normally required.

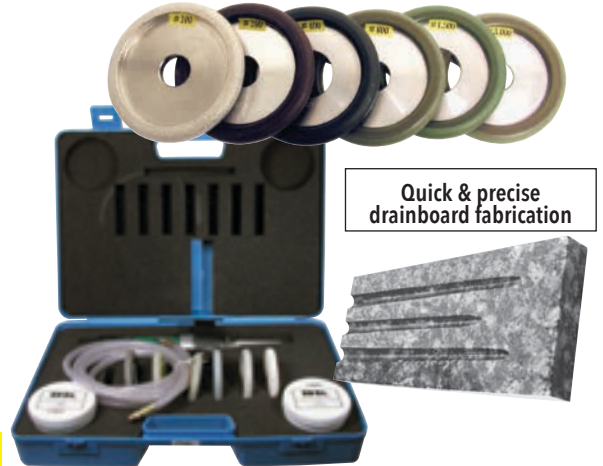

The system includes a 10" diameter diamond wheel which grinds fluting into granite and marble. Included: a unique, water-fed pneumatic grinder and a specially formulated series of resin bonded polishing wheels. To finish the job: a pre-shaped felt wheel and polishing compounds for marble and granite.

Magnum® Router Elite Series

Magnum Elite Series 2018 Upgrades (Magnum 3 & 5)

Featuring a fan-less motor, fully shielded cover and pre-loaded bearings for a more quiet machine. The first 5 feet of the power cord coming from the router is wrapped with a nylon braided sheath to help protect against damage caused by sharp stone edges, dropped tools and other shop or job site hazards. Includes ample loc-line to enable the user to run water from any angle.

- Powder coated stainless steel wrap-around handle prohibits rust
- Higher grade steel spindle shaft and motor pulley ensures part longevity
- Packaged in an impact-resistant, lockable plastic tool box with wheels

Magnum Elite Series Upgrades (Magnum3 only)

- The individual start/stop and E-stop switches have been upgraded to a power on/off tactile membrane switch, rated to last 10,000 cycles, vastly outperforming the original buttons
- LED indicator lights when the router is powered up and for when it is running

Magnum Elite Series Upgrades (Magnum 5 only)

- The variable speed drive is now located inside the router along with all other electrical components; no more bulky electrical cabinet needed to run the Magnum 5, making it the EXACT SAME PHYSICAL SIZE AS THE MAGNUM 3
- With the VFD now located inside the cutting unit, there is a different approach we've taken to ensure personnel safety; a detachable (single phase 20A 280/220VAC) GFCI (Three phase 30A 220VAC available and sold separately)
- The Magnum 5 Elite Series router has a similar tactile membrane switch to the Magnum 3 Elite Series, but with the added benefit of a speed increase and a speed decrease button
- Magnum 5 still has a speed threshold of 2400-9500 RPM
- Tough water-resistant tachometer with large, bright display

MASTER 3500 ROUTER

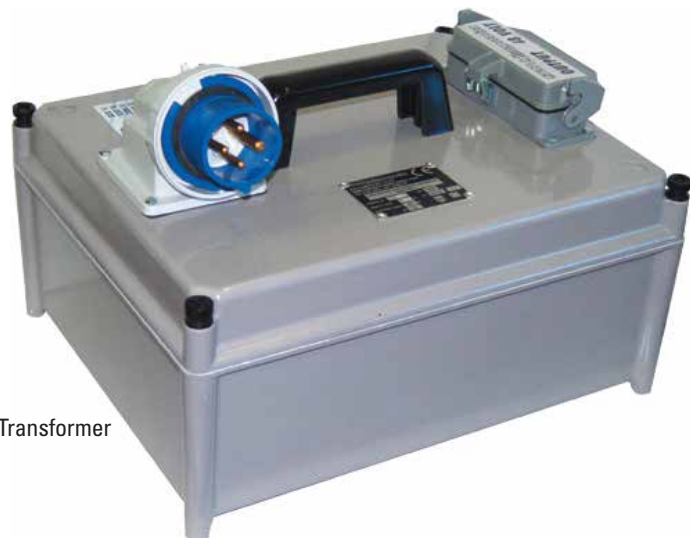

Master 3500 Router

The MASTER 3500 from Marmoelettromeccanica is designed for fabrication of marble, engineered stone and granite. The router is engineered using an electrical supply which is very low tension for safety reasons and is supplied via the use of an electrical conversion unit. The Master 3500's water system includes a "hydro" base which creates a gliding film of water between the machine and the slab, eliminating the stone pieces being damaged, broken or scratched during the fabrication process. The Master 3500 machine is built with high-quality material and designed to last for years of service.

Features:

- Versatile when working with different kinds of profiles
- Safe to use and easy to learn
- Easy to transport
- Heavy duty design withstands the harshest shop environments

Stock No.	Description	Price
442331	Master 3500 Router with Gliding Base.....	\$4,449.00

EDGE MILLING AND POLISHING

Klindex UFO 330 Planetary Polisher

The Klindex UFO 330 is a unique solution to producing planetary polishing results with a small tool investment. The UFO 330 uses the proven technology of a full-scale floor machine but in a much smaller package.

The Klindex UFO 330 features a large, 1 horse power motor that is centered over the grinding head making the 36 lbs. machine superior in creating an even surface.

- 13" working width
- 1 hp motor power
- 1-phase
- 110 or 220V, 10 Amp
- 1,000 RPM
- Weight: 36 lbs.
- Includes 3, 5" Aluminum backers
- Tank capacity: 2 Liters
- Made in Italy

Stock No.	Description	Price
993131	Variable Speed, 330-770 RPM	\$4,140.00

Aqua Router

- Runs off a 3.25 hp Makita® platform
- Uses standard "Sector" 7/8" connection router bits
- Powerful 15 AMP/10,000 - 22,000 RPM motor
- Must be used with a GFCI
- 110V
- 2 LED lights aid when light conditions are low
- 3 Safety locks when adjusting height
- New model is lighter, helping to reduce friction between router base and stone surfaces

Stock No.	Price
790021	\$1,649.00

3-Head Planetary Polisher Model DS 3011

A rugged planetary tool designed to produce a flat, swirl free finish on counter tops, floors, wall, and steps. The DS 3011 can utilize a variety of abrasive products to fit many different applications including grinding, polishing, and texturing natural stone, terrazzo, and concrete.

- Power: 115 Volt / 11 Amp
- Drive Speed: 2,500RPM
- Platen Speed: 405 RPM
- Includes 3, 5" Aluminum backers
- Tool Weight: 30 lbs., Shipping Weight: 37 lbs.

Stock No.	Price
117752	\$2,600.00

T-31 ANCHOR MACHINES & ACCESSORIES

OmniCubed ProAnchor™ T-31 Anchor Machines

The Pro-Anchor easily and precisely cuts T-slots in stone for bottom-mount sinks and architectural facings. Featuring precision alignment indicators and a unique split-clamp design for optimum accuracy and stability. Electric or pneumatic models available, each with an optional vacuum base.

- Uses 1/4" shaft anchor bits

Norton Stoneblast Abrasives

A hard, durable premium aluminum zirconium oxide abrasive compound. Excellent for monumental sandblast lettering, industrial and general sandblasting.

- 50 lbs. per box
- Long lasting 36/60 grit particles

Stock No.	Size
358519	50 Lbs.

#358515
50 Lb. Bag

The perfect blend for all of your sand-blasting medium needs. Zirconia alumina is a mixture of zirconium oxide and aluminum oxide.

#358501

Econoblast Aluminum Oxide

ECONOBLAST is an economical, safe and "silica free" abrasive made of pure white aluminum oxide abrasive, and graded in a 60/80 grit blend. Ideal for cemetery lettering ECONOBLAST is proven to be the most cost effective blasting abrasive.

- 50 lbs. per box

Steel Shot

Use steel shot on granite for greater contrast and whiter panels. Great for delicate shape carving, especially for fine detail and the whitest natural panels. Size No. S-170 is preferred by many for this dual purpose.

- 50 lbs. per bag

Stock No.	Grit
358517	S-170
358518	S-230

Sintered Bauxite Ball

This is a very durable long lasting material that lasts 2 to 3 times longer than aluminum oxide and is much more economical. It is not affected by surrounding humidity, contains no free-silica, and will not rust.

- 50 lbs. per bag

Stock No.	Grit
358516	20-40

Dynablast Abrasive

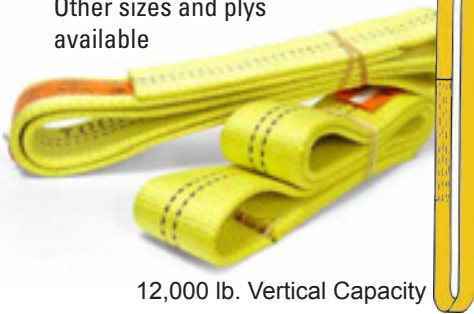

Pure Aluminum Oxide premium blasting abrasive. Coarse grits are used in monumental sandblast lettering, industrial blasting, steel blasting and cleaning. Fine grits are used in monumental shape carving and general sandblasting when smooth surface textures are needed. Available in 50 lbs. Bags.

St. Cloud Type Rollers and Shackles

These rollers and shackles are used where headroom is a problem. Slings are suspended from

aluminum rollers just 10" below the load hook to save space. Rollers are plain with a slight crown in the center and roll independently of the close fitting flanges. Rollers take slings up to 4" width. This assembly is handy in all plants and on truck cranes where lifting height is limited.

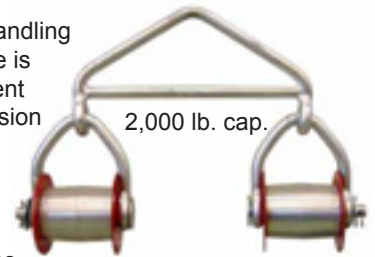

Size	Item #
14"	364933
18"	364935
24"	364937

2,000 lb. cap.

Type-A Rollers and Shackles

Most popular of all hardware for handling endless slings. The A-shaped yoke is designed to give equal and sufficient spread, allowing balanced suspension and freedom of movement of the load at all angles. Slings are suspended on crowned aluminum rollers, which roll independently of the close fitting flanges. This makes turning of the load in the sling easier. Rollers will handle up to 4" wide slings.

2,000 lb. cap.

Spreader Lifting Beam

Adjustable lifting points
Handle both wide and unbalanced loads
Optional: Swivel hooks and shackles

Specifications
Working Load Limit (WLL): 2.5 Tons
Weight: 92.6 lbs

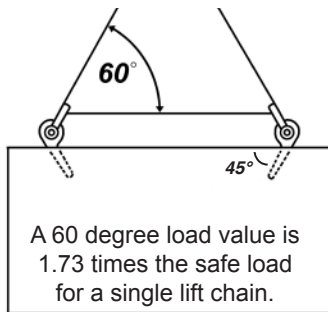

2.5 Ton 362426

18.5"
58"
63"

Specifically designed for the stone industry. The spreader bar, in combination with endless slings, is an invaluable piece of equipment where stone is required to be rolled over. Slings are suspended on crowned aluminium rollers. This makes turning of the load in the sling easier. Rollers will handle up to 100mm wide slings. Swivel hooks can be used in place of rollers. Overall width 2000mm.

- Drum lid with latch kit
- Quick-lock, easy-access filter doors
- 5 year material and craftsmanship warranty
- Goyen solenoids and diaphragms
- **Made In the USA**

Terms And Conditions

Credit Policy

To qualify for open account status, a credit application must be completed in full. Satisfactory references are required. Those approved for open account are notified by mail. Companies not qualifying for open account are either C.O.D. or cash with order. The amount of credit we extend to a customer is subject to change or limitation at any time, either before or after the delivery or any part thereof of an order. Payment in cash may be required as a precedent to delivery. If a customer account is in arrears, we shall have the right, in addition to all other legal remedies, and without prejudice to any other of our rights, to defer further deliveries until full payment is received.

Receipt of payment, whether full or partial, shall in no way obligate us to extend further credit. In case the business of a customer is sold or transferred, or a customer becomes insolvent, or is sued by any creditor, or by customer, or a receiver is appointed for the customer or the customer's business, then in each such event the total amount shall be at once due and payable without notice or demand of any kind. Should a customer's check be returned by the bank, there will be a returned check charge, which is currently \$50. This fee is subject to change without notice.

Statement of Liability

The following statement is made in lieu of all warranties, expressed or implied; GranQuartz and/or manufacturer's only obligation shall be to replace such quantity of product proven to be defective provided that such guarantees or replacement are a stated policy of the manufacturer.

GranQuartz and/or manufacturer shall not be liable for any injury, loss or damage, direct, incidental or consequential, arising out of the use or the inability to use the product. Before using, user shall determine the suitability of the product for its intended use, and user assumes all risk and liability whatsoever in connection herewith. The foregoing may not be altered except by officers of GranQuartz.

Shipping Policy

Unless otherwise stipulated, goods covered within an order shall be shipped "FOB origin". Title to said goods pass to Buyer upon departure from the shipping point, regardless of risk of loss. Transportation charges on goods delivered FOB origin must be paid in accordance to customer terms noted on the invoice.

Terms of Sale

Our terms are net 30 from date of invoice, past due thereafter. A service charge of 1.5% per month will be charged on all accounts not paid by the month end. First-time shipments are sent C.O.D. or by credit card. If the first order is over \$500.00, we require payment by cash, money order, or certified check. We also accept Mastercard, VISA, American Express and Discover Card.

Special Orders & Large Equipment

All Purchase orders for large equipment and machines, including, but not limited to, environmental equipment, saws, StoneCyclers, crane systems, and non-stocked or custom products, including special order CNC profile wheels, are subject to a minimum 50% deposit in order to process order. Due to manufacturers' requirements, such orders are non-cancelable and deposits are non-refundable.

Power Tool Repair Policy

GranQuartz is not responsible for the warranty repair and/or maintenance service, please contact the specific tool manufacturer for the closest manufacturer warranty repair center.

- Skil: 1-800-346-4103

Power Tool Warranties By Manufacturer

Alpha: Alpha power tools offers a one year limited warranty against factory defects on all tools purchased after January 1, 2016. Any tool returned during the warranty period that is found to be damaged or defective due to misuse or normal wear and tear and not as a result of manufacturing or material defects will be quoted a \$30.00 labor fee plus the cost of parts necessary for repair. NOTE: Misuse, improper service, altered, disassembled tools or tools determined to be repaired by an unauthorized service center will be subject to voided warranty. Non-warranty repairs will be charged a \$30.00 bench fee per tool before an estimate for repair is determined. Repaired tools will be shipped back to customer freight pre-paid. All unclaimed tools not resolved within a 90-day period become the property of Alpha. All quoted tools that are processed as Do-Not-Repair-Do-Not-Return (DNRDNR) will be returned to customer at the customer's expense. All tool repairs carry a 30-day warranty. Alpha offers repair centers in the USA. All Alpha warranty and non-warranty repairs are to be sent directly to Alpha repair centers by the customer. Customer is responsible for all freight charges when returning tools to Alpha for repair. An RGA must be obtained from Alpha prior to shipment. Tools may be returned for repair to Alpha Professional Tools, 103 Bauer Dr., Oakland, NJ 07436-3102 (EASTERN USA) Telephone: 800-648-7229, Fax: 800-286-0114, email: tooldesk@alpha-tools.com or [A1 Industrial & eReplacementParts.com](http://A1Industrial.com), 7036 South High Tech Dr., Midvale, UT 84047 (WESTERN USA) Telephone: 801-285-7232, email: dale@replacementparts.com.

Barranca Diamond: All Barranca electric and pneumatic grinding and polishing tools are covered by a 90 day limited warranty against factory defects from the date of purchase. All Barranca warranty and non-warranty repairs are to be sent directly to Barranca or an Authorized Center from the customer (**Romey Power Tool Repair** is authorized by Barranca). Barranca Diamond Products, 1315 Storm Parkway Torrance, CA 90501 Toll-Free: 800-630-7682 Fax: 310-257-3063. Romey Power Tool Repair, 121 Price Hills Trail, Sugar Hill, GA 30518 Telephone: 770-932-8175 Fax: 678-765-2685 romedy121@charter.net.

Hitachi: All Hitachi power tools have a 1 year limited warranty against factory defects from the date of purchase. Hitachi offers a tool replacement for any tool that fails within the first 30 days from the date of purchase (please obtain an RGA from GranQuartz Customer Service prior to replacing the tool). All Hitachi warranty and non-warranty repairs are to be sent directly to Hitachi or an Authorized Repair Center from the customer. For a complete list of service centers, visit www.hitachipowertools.com/index/main-navigation/service-and-support/contact-us.aspx.

Makita: All Makita power tools have a 1-year limited warranty against factory defects from date of purchase. Makita offers a tool replacement for any tool that fails within the first 30 days from date of purchase (please obtain an RGA from GranQuartz Customer Service prior to replacing the tool). All Makita warranty and non-warranty repairs are to be sent directly to Makita or an Authorized Repair Center by the customer. Telephone: 1-800-4MAKITA www.makitatools.com/en-us/Modules/Service/ServiceCenters.aspx

Metabo: All Metabo power tools have a 1-year limited warranty against factory defects from date of purchase. An additional 2-year limited warranty can be obtained if the product is registered at www.metabo.com/xxl. Metabo offers a tool replacement for any tool that fails within the first 30 days from date of purchase. Please obtain an RGA from GranQuartz Customer Service prior to replacing the tool. All Metabo warranty and non-warranty repairs are to be sent directly to Metabo or an Authorized Repair Center by the customer. For a complete list of service centers, visit www.metabo.us/Services-Support.3649.0.html.

Omega Diamond: Tools with limited warranty for 1 year (12

months) and 30-day refund, both from date of purchase include Blue Ripper Jr™ Rail Saw, Blue Ripper Sr™ Rail Saw, Pitbull BigDog™ Stone Chiseler, Red Ripper Jr™ Stone Router and Red Ripper Sr™ Stone Router. Tools with limited warranty for 6 months from date of purchase include Blue Ripper Miter Master™ Rail Saw, Eagle Edger Jr™ Linear Edge Attachment and Red Ripper Ultralight™ Stone Router. All repairs: Many issues are field-serviceable by the owner of the tool, please call one of our technicians to save both time and money.

Warranty repairs: Free factory service, replacement parts, labor, and UPS Ground shipping (see warranty for each tool for details). Customers are required to call prior to returning any unit for service.

Omega Diamond 10125 Ophir Rd Newcastle, CA 95658-9504 Ph: 888-996-4777 Fax: 530-885-3785 Non-warranty repairs: Parts or upgrade kits are available for purchase for all tools and paid factory service is available. Customers are required to call prior to returning any unit for service. On these products Omega Diamond's warranty excludes the motor. Motor warranted under motor manufacturer warranty, if available.

Omni Cubed: Omni Cubed offers a limited warranty for a period of ONE YEAR from the date of purchase (i.e. receipt or invoice date). For Omni Cubed vacuum pumps sold after 10/15/2009, online registration at www.omnicubed.com/ registration is required to receive this full year of coverage (otherwise the pump warranty defaults to 6 months from purchase date). This warranty covers all defects in workmanship and materials for Omni Cubed products. This warranty only covers defects arising under normal usage. This warranty applies only to the original purchaser, and is non-transferable. This warranty does not cover malfunctions, failures, or defects resulting from misuse, abuse, neglect, accident, alteration, or lack of proper maintenance. This warranty also does not cover modifications or repairs performed by entities other than Omni Cubed authorized service personnel. Omni Cubed will either replace the product, or repair any defects in workmanship or materials, at their discretion and without any charge to the customer. The customer will need to pay for replacement parts, labor charges, and total freight charges after the one year limited warranty expires, and in all cases when the damaged or failed part has resulted from misuse, abuse, neglect, accident, alteration, lack of proper maintenance, or modification/repair performed by an entity other than Omni Cubed authorized service personnel. This warranty gives the customer specific legal rights; the customer may have additional rights applicable to this warranty. The customer will need to return the warranted product, freight prepaid, along with an RMA (returned merchandise authorization) form and number obtained from our Customer Service Center. Contact the Omni Cubed Customer Service Center via email at customerservice@omnicubed.com, or by phone at (877) 311-1976, to request an RMA form. The form will either be emailed or faxed directly to the customer, which will contain the RMA number assigned to your return. Returns will not be processed without a valid RMA number. RMA numbers are only valid for 30 days from the date of issuance. Return the product (including all related components) to the Omni Cubed Exchange Center noted on the RMA form. Be sure to include: completed RMA form (which was provided to you and contains your RMA number), proof of purchase documentation. Omni Cubed recommends that the customer fully insures the package being returned. Omni Cubed also suggest that a "traceable carrier" that can provide a "proof of delivery" be used to ship the return. Omni Cubed shall not be responsible for items returned that are lost or damaged in transit.

(Continued next page)

Pearl: All PEARL tile saws have a 1 year limited warranty against factory defects from the date of purchase. All PEARL warranty and non-warranty repairs are to be sent directly to a PEARL Authorized Repair Center from the customer. For a complete listing of Pearl Repair Centers, please visit <http://www.pearlabrative.com/Custom/Pages/ServiceCenters.aspx>

Private Label Brands: Refers to All GranQuartz®, Pro Series®, Assassin®, and Diarex® branded air polishers. GranQuartz's private label tools have a 30 day limited warranty against factory defects from the date of purchase. All warranty repairs or out of warranty repairs should be sent directly to Rometry Power Tool Repair from the customer. Rometry Power Tool Repair, 121 Price Hills Trail, Sugar Hill, GA 30518. Telephone: 770-932-8175 Fax: 678-765-2685 romedy121@charter.net

Magnum Routers: All warranties begin at the date of purchase. Magnum routers have a 90 day limited warranty on electrical components and a 6 month limited warranty on mechanical components. All Magnum warranty and non-warranty repairs are to be sent directly to Nytech Industries or an Authorized Repair Center from the customer. Nytech Industries is located at 24253 County Rd., St. Cloud, MN 56301. Telephone: 320-240-9033, Fax: 320-240-9118 nytech@cloudnet.com. Rometry Power Tool Repair is authorized by Nytech and are located at 121 Price Hills Trail, Sugar Hill, GA 30518. Telephone: 770-932-8175 Fax: 678-765-2685 romedy121@charter.net

•Warranty begins on the date of invoice, not the first day of use on the power tool.

•For non-warranty repairs of GranQuartz private label Power Tools, there will be a minimum non-refundable charge of \$50 to inspect and diagnose a tool. The \$50 nonrefundable fee must be paid in advance (no COD accepted). Should the customer wish to proceed with a repair of a GranQuartz Power Tool, this \$50 charge will be credited to the final cost of the repair.

•An RGA number is required and the customer is responsible for all freight charges to and from our warehouse. No repair will be shipped on C.O.D basis, but must be paid for by cash or credit card in advance of shipment.

Return Policy

A Return Authorization Number (RGA#) is required for all product returns. An RGA# and shipping instructions can be obtained by contacting Customer Service. No returns will be accepted without an RGA#.

GranQuartz Customer Service: 800-458-6222

- A 15% re-stocking fee will be applied to all returned goods on stock material (non-defective products).
 - All returns must be shipped back in original, unopened packaging in order to receive credit.
 - No returns authorized after 90 days from date of purchase.
 - No returns will be accepted or credit issued on used products, unless they are proven to be defective.
 - All claims of shortages must be reported to customer service within 48 hours of receipt.
 - No returns will be authorized on Hazmat products, chemicals, or adhesives.
 - No returns will be authorized on special order items including special order CNC tools.
 - Customers must pay shipping charges on all returns.
- Upon receipt and inspection of the product return, GranQuartz will issue a refund on shipping charges if it is proven that there was a shipping error or the product was defective.
- Returns are limited to 10% of the previous 12 months net purchases.
